

CAB Cap®

Unique, patented design looks like a standard baseball cap when selectively deployable fabric isn't used, but provides warmth and protection of a stocking, hunting, and skull cap when fabric is used.

Common applications:

- Running, cycling, hiking, walking, golf, hunting, fishing
- Baseball – Little League to MLB
- Football and soccer sidelines – players and coaches
- Construction, painting, other trades
- Gardening, mowing, and other yard work
- Any outdoor activity when protection from cold, wind, rain, or sun "might be a must"

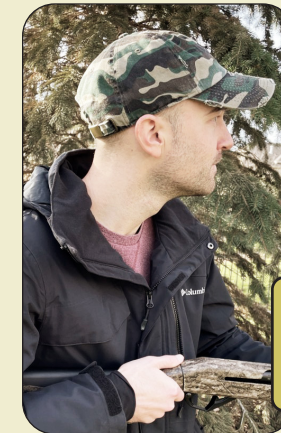

Warm autumn
tailgate...

Cold night
game.

Early morning
hunt...

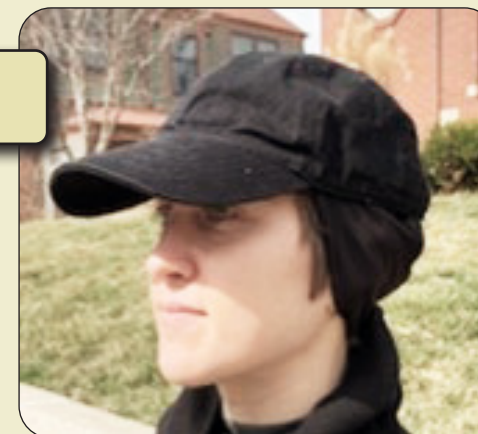

Later in
the day.

ISU Fan?

Or a house
divided?

Warm up...

Athletes warm up with fabric deployed and enjoy the benefits of a standard baseball cap after warm up.

Warm-ed up!
