## WHAT IS ONE COAT STUCCO?

One Coat Stucco is an ideal exterior wall treatment for residential, commercial, institutional or industrial buildings. One Coat Stucco consists of a blend of Portland cement, sand, fibers and special chemicals which produce a very efficient stucco system.

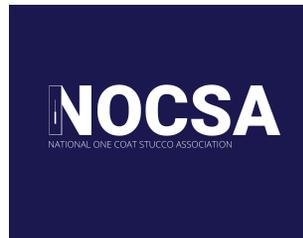

One Coat Stucco provides design flexibility, durability, water management, versatility as well as cost savings. . . and it can be finished in a variety of ways including premixed colored cement stucco finish coats, elastomeric coatings, acrylic paints and acrylic textured finishes.

One Coat Stucco utilizes Number 20 Gauge Wire OR Metal Lath.

## ONE COAT STUCCO PROVIDES:

- **GREAT IMPACT RESISTANCE**
- **A SINGLE APPLICATION OF 3/8" TO 1/2" THICK**
- **WEIGHS ONLY 5 TO 6 POUNDS PER SQUARE Foot**

Foam insulation substrates are often integrated into the **One Coat Stucco** providing significant thermal and sound benefits.

One Coat Stucco combines the “scratch and brown” process into a single application of a 3/8” to 1/2” thick coat, reducing application cost over conventional systems. The One Coat Stucco system also reduces scaffold time and requirements on job sites which opens up valuable workspace more quickly.

In short, the speed of application allows for completion of project much more quickly, saving time and money. Yet, One Coat Stucco provides the benefits expected from stucco. . . durability, design flexibility and fire resistance.

## WHY IS ONE COAT STUCCO CALLED ONE GREAT SOLUTION?

One Coat Stucco is versatile! One Coat can be applied by hand troweling or machine spraying to almost any common wall substrate. Some substrates include foam insulation sheathing, gypsum sheathing, exterior building boards, plywood and OSB exterior sheathing. One Coat Stucco may also be applied over masonry block, concrete or brick without additional metal reinforcements. And since the base coat can be finished in a variety of ways, the look you want is easily obtained.

So whether it’s commercial, industrial or home construction, One Coat Stucco is One Great Solution.
