### Five Keys for Happiness

1. Give God the first hour of each day (Mark 1:35) Pray in the morning.
2. Give God the first day of the week (I Cor. 16:2). Serve in your church to carry out the Lord's mandates.
3. Give God the first portion of your income (Prov.3:9) Keep books on what you give to be sure you do not think you are giving more than you actually are.
4. Give God the first consideration in every decision (Matt.6:33). This includes your choice of house, close friends, work, church, school, entertainment etc
5. Give God's Son first place in your heart always (II Cor. 8:5) Live in His presence as though He were the unseen guest in your house- He is, you know! – Ord L. Morrow

## Zoom Meeting Etiquette

### *Microphones*

If you are not the person currently speaking, it is recommended that you mute your microphone.

To mute your microphone, select the **microphone icon** in the bottom left corner of the Zoom call. When the icon has a slash through it, it's muted.

To unmute yourself when you need to speak, select the **microphone icon** again. You can also use the space bar to unmute yourself.

Muting your microphone helps others on the call focus on whoever is speaking at the time. It is generally recommended to mute your microphone as you join the call. Background noises can be distracting in a call, so make sure you keep everyone focused on the topic at hand.

*Host can mute all incoming persons as default setting. This setting is recommended in case of cyberbullying or cyber harassment. Limiting screen sharing is also a suggestion to prevent inappropriate content from being displayed.*

### *Video*

Make sure you are aware of your surroundings when enabling your video. Bright lights and movement or other distracting backgrounds may detract from others ability to be able to concentrate on the topic at hand.

### *Chat Feature*

The in-meeting chat allows you to send chat messages to other users within a meeting. You can send a private message to an individual user or you can send a message to an entire group. As the host, you can choose who the participants can chat with or to disable chat entirely.

This a good spot to ask questions or make prayer request.

# Calvary Online Bible Studies

In-meeting chat can be saved manually or automatically. Auto-save chat will automatically save your in-meeting chat locally on your computer. You can also manually save your chat when you start local or cloud recording.

## *Video body language and presentation*

Clothing matters in a video call, particularly what you wear on your upper half; be conscious of what the camera captures, both on your person and in your home, and adjust accordingly. Avoid clothing patterns and colors that distract or obscure, including floral prints, stripes, shiny fabrics, or fuzzy details.

## *Camera positioning*

Ensure your camera is elevated to give straight-on perspective during your call. Center yourself in frame, adjust the positioning, and check before starting the call to ensure you are framed properly.

## *Lighting*

Position the camera so that you are facing a light source, and that that light source is never behind you. The best lighting is natural light, though direct sunlight may cause you strain; if no natural light is available, use a lamp.

## *Other Tips*

Remove any distractions you can before you start or join a video call, including the following:

- Silence personal devices
- Set up in a quiet location
- Don't check email/phone/web while on video call, as other participants can easily tell when you are distracted.
- If you intend to record the call, ensure that all participants are aware beforehand, or at the start of the call. In Maryland you must notify other users that they are being recorded.
- If you have time, test your microphone and video settings beforehand to ensure that all technical aspects are working properly, you are set up correctly, and you are visually prepared to participate in the call.
- Encourage speakers to introduce themselves, especially if not everyone knows each other.
- Address participants by name to signal attention on the call when body language is no longer available.
- Anticipate unexpected outcomes, such as physical or technical interruptions, with patience.
