

Right now, I want to make you aware that each facility utilizes patriotic blankets for Hospice patients only. These super twin blankets should be 57x72 inches and done in a patriotic theme or colors. There is always a need for these and the patients are always honored to receive such a blanket and their loved ones usually treasure the blanket after the loved one has passed. If you have a quilter in your mix, please consider donating a blanket or more to one of the facilities soon.

Fort Meade and the Hot Springs MJF Home are especially in need of these at most times.
