Deputy Supervisor David LeRoy called the Regular Town Board Meeting to order commencing at 6:00 PM with the Pledge of Allegiance and Lori Diver opened with roll call. All members were present.

PUBLIC SPEAKERS:

(Mike Scoville-Lemcke property)

Mike Scoville was unable to make the meeting. He was advised to attend the September meeting.

(Sandy Hamilton-Cemetery Markers)

Sandy Hamilton discussed with the Sodus Town Board cemetery markers from the William G. Pomeroy Foundation. (see attached letter with documentation).

Patriot Marker presentation to the Town of Sodus Board:

These markers honor the patriots who served during the American Revolutionary War. The Patriot markers are approved and funded by the Pomeroy Foundation. The next round of applications is due in September and is to be submitted by November. We are trying to get an early start since it is ambitious to do 5 cemeteries at once.

We have already secured a Patriot marker, along with a Pomeroy historic marker, for the Brick Church and cemetery on South Geneva Road.

Share the list of the 5 cemeteries and the number of soldiers in each. Mention that we only must prove one soldier is there to satisfy the qualifications for the marker, but we want to be able to include as many as possible.

Explain that we must apply through the SAR, and that we have a former member and a member, Daryl Verstraete and Tim Middlebrook already working with us. (Tim secured the Brick Church Patriot marker for us. Daryl worked with Sandy Hopkins on restoring the Mill Street Cemetery and has researched many of the grave sites in the area.)

From the town, we need the letter of ownership giving us permission to install markers at the cemeteries. We will eventually need the exact location for each marker to include in the application. We will need a letter for each cemetery since we will have to fill out an application for each.

Revolutionary War Soldiers buried in Sodus Cemeteries:**South Sodus:**

Jonathan Pendall, James Green, Christopher Pope, Elijah Taylor (4)

Old Mill Street Cemetery:

Joseph Green, Philipp Demorest, Lemuel Higgins, William Stone (4)

Sodus Rural Cemetery:

John Norris, Peregrine Fitzhugh (Head stone is in cemetery. I believe he was buried in the Lake St. cemetery in Sodus Point. Several graves were lost in the lake as a result of erosion.), Simeon Kent (3)

Busnell's Cemetery: Joshua Danford, Asa Hewitt, Maj. John Dolittle, Oliver Field, Joel Dolittle (5)

New England Cemetery (Centenary Cemetery): Jeduthan Moffat (1)

[FAQ](#)

One of the William G. Pomeroy Foundation's core initiatives is to help people celebrate their community's history. The Foundation strongly believes that historic markers play an important role in local historic preservation by serving a dual purpose. They educate the public and foster historic tourism, which in turn can provide much needed economic benefits to the towns and villages where the markers are placed. The program also fills a gap, as New York State stopped funding their roadside markers in 1939.

Our New York State Historic Marker Grant Program commemorates historic people, places, things or events within the time frame of 1683-1924. Since 2006, the Foundation has funded more than 950 markers in all 62 New York State counties.

Discussion was held by Councilperson Chris Tertinek regarding solar power at the Sodus highway barn. Tertinek did some research regarding solar panels at the highway barn and stated the next option would be to get in touch with Sharon Lilla to see about possible grants that may be available for solar power. Letter from Greenspark provided via conversation Tertinek had with Chris Miers (see page 12).

From Chris Miers, Greenspark Solar 08-02-2024

Chris,

Doug will be out for a few days for vacation, but he wanted me to get some numbers over to you for the preliminary solar proposal. We can provide a standardized proposal post-vacation.

Based on the information provided so far, the max kW we would be able to install would be about 100 kW

Based on that number, the NY Sun program would allow for a \$25k grant, which would put the contract price on a project at \$275k.

The Federal tax credit (ITC) would also be about \$30k, so all in would be about \$245k

Based on those calculations, there would be about 10k a year in savings.

If there are any questions or anything, let me know and I can try to address them or Doug will be available at the end of next week. Thanks again for this opportunity!

Without figuring interest, the payback would be 24.5 years.

Note:

Conversation With Doug on 7/26, after rebate and credit it would be 15.7 years.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only (If applicable)	
Project :	Adoption of LL 1 Fowl & Livestock Law
Date :	8/7/24

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Determination of Significance - Type 1 and Unlisted Actions

Upon review of the information recorded on this EAF, as noted, plus this additional support information <u>Coastal Assessment Form: Sodus Coastal Erosion Hazard Area Map</u>	
and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the <u>Town of Sodus</u> as lead agency that:	
<input checked="" type="checkbox"/> A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.	
<input type="checkbox"/> B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:	
There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).	
<input type="checkbox"/> C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

WHEREAS, in accordance with the New York State Environmental Quality Review Act ("SEQRA"), and regulations adopted to implement SEQRA, the Town must undertake an environmental review of the Local Law; and

WHEREAS, the Town caused a full Environmental Assessment Form ("EAF") for the Action to be prepared to evaluate the significance of the potential environmental impact of the Action; and

NOW, THEREFORE, IT IS RESOLVED that, pursuant to 6 NYCRR §617.6(b)(1), the Town shall serve as Lead Agency for the SEQRA review of the Action; and it is further

RESOLVED, that the Town Board has reviewed and accepts the EAF dated August 7, 2024; and it is further

RESOLVED, that the Town Board has considered the Action as defined in sections 6 NYCRR §§617.2(b) and 617.3(g) and its potential for environmental impacts; reviewed and considered the EAF, the criteria contained in 6 NYCRR §617.7(c); and other supporting information to identify the relevant areas of environmental concern; and thoroughly analyzed the identified relevant areas of environmental concern to determine if the Action may have a significant adverse impact on the environment, and finds that the Action would not have a significant impact on the environment, because:

1. The Action will not authorize or result in any additional projects or environmental impacts.
2. The Action would not result in any identified negative environmental impacts or induce other actions, and is consistent with the Master Plan of the Town.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only (If applicable)	
Project:	Adoption of Town of Bodine Zoning Law
Date:	8/7/24

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

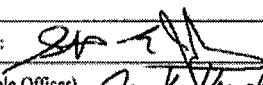

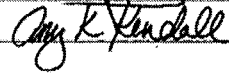

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: ☒ Type 1 ☐ Unlisted

Identify portions of EAF completed for this Project: ☒ Part 1 ☒ Part 2 ☒ Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information <u>Coastal Assessment Form: Sodus Coastal Erosion Hazard Area Map</u>	
and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the <u>Town of Sodus</u> as lead agency that:	
<input checked="" type="checkbox"/> A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.	
<input type="checkbox"/> B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:	
There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).	
<input type="checkbox"/> C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

July 1st- We got the gym set up and the tot room set up. There are still a few things I need to get so I ordered them. Lori was able to get Venmo to go through!!!!!! Happy Dance was done!

July 2nd Deposits were sent to venmo totaling \$12819.23 was sent and should be seen 1-3 business days. Jay Roscup set up the Steady work kids for them to be on his payroll while working for rec. Only 2 remain and will be going Tuesday to finish their paperwork. Put away more supplies. Order basketball team play shirts. States they will be on July 17th. waiting on soccer. Also Spoke to _____ and we are scheduling CPR/ First aid training along with Epipen and Nebulizer training. With the grant we are receiving from the help of Val Fanning, she says we can use that grant to pay for the certifications for the coordinators and myself. that a total of 16 people at \$50-60 per person. This includes the training and cards to carry. Total usage of the \$10,000 usage based on my own account is \$8143.44 leaving me with \$1856.56 for use for the cooking program, Soccer Shirts and remaining items for the August 15th party.

July 5th we came in to get the music room and library set up! I was also informed CPR would only be \$40 per person

July 8th day 1 of summer rec. It was a bit of a mess. Lunch was not at the right time and it was an argument with Summer school. Pick up did not have a good flow. Parents were very concerned they were not being IDd at pick up. It was an all around messy day.

July 9th we changed pick up so parents are coming into the gym to pick up their child at their animal. Overall, better day Lunches were still an issue for the cooking kids but everyone ate. Basketball was good. missing a few kids but all in all went well

July 10th. Everything was going well until we received a tornado warning. We quickly put the kids together into the hallway away from windows and doors. Staff stepped up and made sure all the kids were calm and ok. Parents came and were a little frustrated their kids were clustered on the floor in the hall but were fine once we explained it was for their safety. Soccer was cancelled

July 11th First Field Trip to Cracker Box! Everything went so well! The kids were happy, the staff was happy and the Cracker Box was happy! No issues to report!

July 15th After thinking of what Amanda does for this program I have decided to make her my Assistant Director. I offered her the role and she accepted it. :) refunds were issued to summer school kids in the amount of \$75 each. We only have them half the day so it should be half the cost.

July 18th 2nd Field trip. today was Sodus Point Beach. The life guards are not there until 11 so the kids play on the beach. Nothing to report, everything went well!

July 22nd. There have been a few reports of a specific child causing harm to staff in a younger age group previous to today but the child was always able to be calmed down. Today this child kicked one of my staff so hard in the knee , it bent backwards. The Staff member has gone to urgent care and has been removed from work for 3 days minimum. The child because they have been talked to multiple times about their behavior has since been suspended the rest of this week and may try again on probation starting monday. This resolution was ok with my Assistant Director Amanda, the

injured staff member and the parent of the child with the understanding that if the behavior continues they will be removed completely. We also had another child sent home her putting hands on another student forcefully. Child was sent home and welcomed back wednesday as well

July 29 we have had a very large number of kids out with pink eye.

july 31st I was out with pink eyes. The attached report is from Amanda

Wednesday, July 31

- Resha missed cooking class today and would like to have it rescheduled because it was an activity her kiddos wanted to participate in. She attempted to take them this morning, but Paige told her that it wasn't her turn.
- TODO: Print beaded animal patterns for the kids to make keychains
- TODO: Print lunch menu to hang up in the gym (kids keep asking what lunch options are)

Thursday, August 01

- Staff Updates
 - Sent home: Shane (migraine) and Tristan (pink eye)
 - Ashley left for daughter dr. appointment - did not return
 - ALL staff were given legal lunch break (schedule was a bit off but worked out) - Please check to make sure Kobey is getting coverage daily
 - Mavrik jokingly told Aurora that she has issues, realized in the moment that she was offended and apologized on his own. She still reported it - I spoke with him and explained that she is very sensitive and to be mindful of his choice of words. He was super receptive and apologetic.
 -
- Field Trip Notes
 - Christina and I split groups into 20-minute rotation sessions to see vehicles - those who were waiting could play on playground (which ended up being closed), or in the fields (brought balls and water cart)
 - Asked staff to send kiddos to bathroom, fill bottles, bring lunch (if they had) and apply sunscreen as they were arriving
 - A big kid had an accident as they were starting to walk over - I called mom to bring him new clothes, but he wanted to leave when she arrived.
 - Tots leave at 9:30 - Bigs leave at 9:45
 - Group 1 - TOTS
 - Group 2 - Frogs and Turtles
 - Group 3 - Platypus and Raccoon
 - Group 4 - Ducks and Otters
 - Group 5 - Squirrel and Beaver
 - Tots: No issues that I am aware of
 - Bigs - not happy with the playground being closed, the older kids were not interested in the trip (for babies), staff were annoyed because plan changed with lunch having to be held at the IS instead of being brought to us at ES (not really a big deal) and because their scheduled lunch was going to be late.
 - As the groups finished their visit, they walked back to IS for bagged lunch and free play in the gym.
 - I covered a group for lunch coverage and had to have a kiddo join with me because their group left without him
- Program Notes
 - TFS and CF were fighting before the field trip and were told to stop (last warning or would be leaving). CF agreed and was fine, TFS continued to argue or take any responsibility of his actions. They were sent back to get ready and a staff member (who should not have been involved) decided to continue the conversation which set

off CF. I had him stay back to calm down and walk over with me. I asked him to join a different group to avoid more problems - he was great for the rest of the day.

- TFS and GW were playing 4square - TFS was out but started screaming and refusing to leave his square. He claims his shoe fell off, both threw shoes at each other and then TFS full speed charged to shove/punch GW. Camera footage was viewed, both admitted to their actions, but again TFS felt he did nothing wrong and that it was funny to hurt someone. I had him sit in the foyer and called Mom (x2 and voicemail), called Shane (x2 and text). No responses so TFS sat until 2:30 (went to end of science). A staff member started to take him for a walk - I respectfully told the staff that he was not going to do that and told him to sit down. I explained to her the situation and expressed that I understood he wasn't the only participant, but his behavior was ongoing today. When Mom arrived, I explained the situation and stated that TFS could rejoin us on Wednesday, Aug 07.
- AG and VW were "tried" kissing in the locker room. (Staff were only aware because they were told by the girls). They both stated that they were curious and wanted to participate but after thought it was inappropriate and stopped. I spoke with them about REC not being the time/place for kissing. Called VW mom - she was extremely upset/disappointed with the situation, supported my decision on keeping the girls separated for the remainder of the day and agreed that they would remain separated for the remainder of the summer program. Spoke with AG mom in person at pick up, explained the situation and planned moving forward. She was appalled and agreed with plan - not sure if she will continue program based on continuous inappropriate behaviors throughout the summer.
- Swimming - Free swim for the entire duration

➤ Additional Notes

- The library was "closed" temporarily due to an overload of kids after the fieldtrip.
 - We need to review quiet space rules with staff so everyone is on the same page with the expectations in that space. - Maybe ask Garrett to share
- Two younger children were missing and no one was aware. They went out the back door in the gym and joined the 21st Century program's activities. Lisa Moore walked them back inside.
- Summer School staff are more than welcome to say hi to the kids in the gym and stay for a few minutes, but they cannot hang out and play with staff.
- IF YOU SEE AN ADULT YOU DO NOT RECOGNIZE IN OUR SPACE - STOP THEM!
- New Procedure - Milk can only be enjoyed at tables. There are way too many empty/half-filled cartons being spilled or left behind at dismissal.

- Milk can only be enjoyed at a table - too many empty/half-filled cartons being left all over the gym at dismissal
- Staff need to encourage kiddos to check the table before leaving to make sure they have all of their belongings.

Subject: Beechwood report july

July was an incredibly busy and productive month here at the park. I first have to recognize the amazing volunteers we had from The Week of Hope. These young people were amazing! They worked so hard, got so much accomplished and were an absolute pleasure to work with here at the park. Over their multiple weeks here they cleared and made 2 new tent camping sites, made over 30 signs and trail markers, built an incredible primitive survival shelter for our guests to see, and spent multiple days doing trail maintenance. I can not thank the organization and volunteers enough. It was an amazing experience having them here. July was a banner month for camping here at the park. We brought in \$1300 in camping fees for the month and I believe that is the most we have made in a single month since the fee for camping started. The park also received a donation of 6 canoes and multiple life vests from the now defunct Sodus Boy Scout troop in July as well. They will be a great future addition to the park as we constantly keep adding activities for park goers to do. All mowing and maintenance has been on schedule for the month and training for the new back up Beechwood and Cemetery position has started and is going great. Kyle Kephart has been a wonderful addition to the team and is incredibly helpful and eager to learn the daily operations of park and the cemeteries. All in all, July was an incredibly positive month here at the park.
