LUTRON

RadioRA3 In-Person Qualification Training

Student Pre-Couse Tasks

Create a myLutron Account – Click "Sign In" on any Lutron website

Become a Lutron PRO – Fill out the application [HERE](#) You don't need to upload any PO's, just fill in the basics information.

Student Pre-Course Learning

Log in to Lutron LCI [HERE](#)

Find and enroll in LP831 – "RadioRA3 – Qualification Training" on LCI [HERE](#)

Complete the following:

RadioRA3 System Design Overview (OVW 704)

RadioRA3 Software Programming (OVW 705)

RadioRA3 Commissioning & Servicing (OVW 706)

These online modules will help you get some of the baseline knowledge needed to be successful during the in-class training portion.

Student Download

Download and Install the lastest Lutron Designer+ Software (required for in-class training)

Download from [HERE](#)

View System Requirements [HERE](#)

You will not have access to RadioRA3 software in Lutron Designer at this time. You will be given access on the day of in-person training.
