or email Kathy.obrien07@comcast.net

Pay and Pick up Thursday, May 16, 2019 from 2 - 7 PM

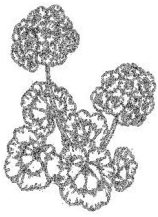

Think Spring!! Thanks to our loyal customers, and our dedicated volunteers, our 2018 plant sale was one of our most successful. We hope you continue to find our offering as a beautiful way to enhance your home and landscape. The plant sale provides our customers with beautiful healthy plants and provides us with funds to support a host of worthy local organizations. Most of your old favorites are back and we have added a couple of new items. Take a look at the Gomphrena... it was new last year and added great filler, color and texture to pots. Try Wedding Train Coleus for a great "spiller". New items are marked with an *. . Come and meet our garden club members and see what a garden club has to offer. .

For your convenience, you can email your order to Kathy O'Brien. There is an electronic spreadsheet you can request and fill out or you can type out your order in an email (make sure to include product name, quantity, color, type (hanging basket, flat, etc.), cost, and cost extension). PLEASE make sure you receive a confirmation back from me that your order was received via email.

Again, all our plant material is provided by Van Til's Greenhouse. Their superb plants are a fantastic addition to any garden! All flats are 48 count and the plants are waiting to be planted into your garden to add spectacular color and fragrance! Thanks to the cooperation of Van Til's there are no price increases this year!

The 10" pots and hanging baskets continue to be a hit and you can easily move them from the pots into your own containers or put them right into the ground. A quick blast of color! A diverse garden will attract many hummingbirds, butterflies and bees, therefore we have indicated which plants are good pollinators.

HOMEGROWNS will be available on sale day on a first come first serve basis. Remember our perennial homegrowns are grown and established locally which makes for an easy transfer to your garden! Paul Stoffels will again have a variety of tomatoes and peppers from seed to offer for sale. Plants will be available on Plant Sale Day – but not available for pre-order. If you have perennials to donate, please call Kathy O'Brien 630.790.0520.
