

Foxboro Discretionary Fund

For more than a half-century, the Foxboro Discretionary Fund has been a registered nonprofit organization committed to supporting Foxboro residents in need of temporary assistance. Part of this aid involves food distributions through the local food pantry. But the fund also aims to provide short-term financial solutions following unexpected loss or other conditions which may impact household financial situations – particularly in light of the ongoing COVID-19 crisis.

Applicants will be notified and a review process initiated as requests for assistance are received. In some circumstances, additional information/documentation may be required. Given anticipated demand on fund balances, financial assistance will not be granted in all cases.

Every line of this form must be completed accurately.
