

We are committed to building the

ATLAS LIFTING & RIGGING IS A GLOBAL LEADER IN INNOVATION AND MANUFACTURING OF CHAIN HOISTS WITH ITS CORPORATE HEADQUARTERS BASED IN THE UNITED STATES. WE HAVE DISTRIBUTION CENTERS AND REPAIR CENTERS STRATEGICALLY LOCATED ACROSS THE US AND HAVE EXCLUSIVE PARTNERS IN EVERY CONTINENT OF THE WORLD.

Atlas Lifting & Rigging with over 270,000 sq. ft. of manufacturing, has one of the most advanced manual hoist manufacturing facilities in the world. Our manufacturing principles and philosophies are based on European and American standards.

The origins of our engineering, manufacturing and strict quality control processes trace back to centuries of German engineered and production techniques. We have blended hundreds of years of European and American hoist manufacturing expertise with today's cutting-edge engineering technology and advanced manufacturing to create a hoist that is designed to be the Strongest, Safest and Most Reliable hoist possible.

OUR COMPANIES HAVE A PROVEN TRACK RECORD OF PROVIDING THE HIGHEST QUALITY AND MOST RELIABLE MANUAL HOISTS IN THE WORLD. FOR DECADES OUR COMPANIES HAVE SUPPLIED MANUAL HOISTS TO SOME OF THE MOST WELL-KNOWN AND RESPECTED COMPANIES AROUND THE GLOBE.

Many years ago, the founder of ALR had a vision of how his companies could change the future of the global hoist industry. He saw that the world was becoming much more connected and there was an opportunity to do something that had never been done before.

He envisioned building a line of hoists that would be unmatched in the industry. He would then deliver his products direct to local distributors around the globe. He could deliver the best technology the industry has to offer at an affordable price to every job site in the world.
