

## 1.1 LESSON 5.2

# UNDERSTANDING MY IEP

An IEP is an Individualized Education Plan or Program that is developed to ensure that a student who needs special education, receives specialized instruction and services related to their identified disability.

An IEP is developed by a team of educational advocates, the parents and the student to identify the student's academic progress, strengths, goals, and accommodations necessary for the student to be successful.

Do you recognize these terms from your IEP? Match the terms with the definition

Accommodation

a change in what is being taught or expected from the student.

Modification

a tool or adjustment made to help a student complete an assignment without changing what the assignment.
