

PREVENT SCALE. PROTECT.

GREENWAY

SALTMAX

The SALTMAX Water Conditioner provides whole-house prevention of scale buildup and stops hard water scale from forming without salt, electricity or wasted water. It also protects your plumbing and household appliances from problematic scale buildup for a longer life span. Lessen the buildup and lessen your impact.

SALTMAX

ELIMINATING SCALE JUST GOT EASIER AND MORE ENVIRONMENTALLY FRIENDLY

PREVENTS HARD WATER SCALING

Reduce scale buildup by up to 95% (when compared to no treatment at all) Saltmax Life of your water appliances, including ice makers, dishwashers, coffee makers and more, by preventing hard water scale buildup.

REMOVES EXISTING SCALE BUILDUP

If scaling has already formed in pipes or water appliances, the Saltmax will also help de-scale existing buildup, improving the water flowing through your home and prolonging the lifespan of appliances.

NO SLIPPERY FEEL

The advanced technology of the Saltmax does not leave behind the slippery feeling on skin that often occurs with a typical water softener.

EXTREMELY ENVIRONMENTALLY FRIENDLY

The Saltmax uses no electricity, no chemical additives and wastes no water. Our simple, straightforward system operates with an absolute minimal environmental footprint.

SYSTEM ADVANTAGES

No moving parts, meters, or motors to wear out

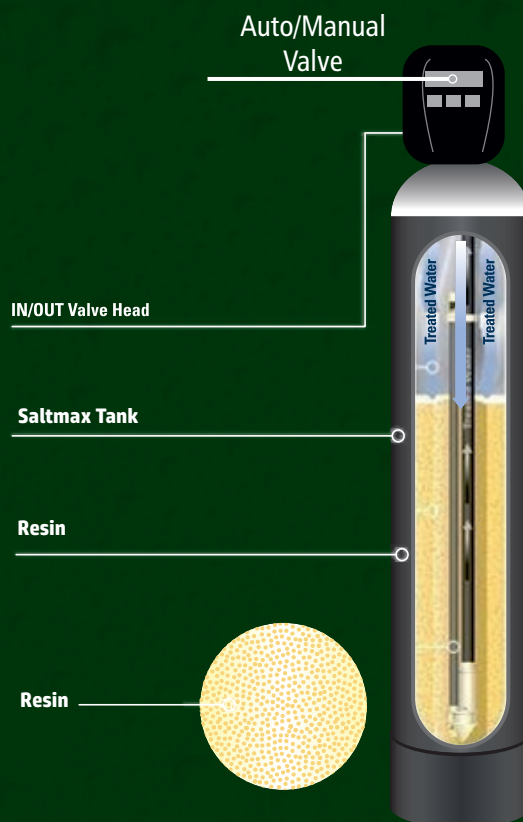

- Simple test kit indicates whether system is functioning properly to prevent scale buildup
- Designed to work with high hardness levels up to 600 ppm (Higher rates available. Ask your dealer for more information)
- Simple installation with no electric programming needs
- Media and components certified to NSF.

System Specification

Model*	FLOW m ³ / hr	Model*	FLOW m ³ / hr
SALTMAX01	1.0	SALTMAX05	5
SALTMAX02	1.5	SALTMAX06	6
SALTMAX03	2.0	SALTMAX07	7.5
SALTMAX04	3.5	SALTMAX10	10

HOW IT WORKS

1. Untreated water flows through an optional carbon pre-filter for improved taste, odor and chlorine removal, and protection of the saltmax resin
2. Water flows down through tank center tube
3. Water flows up through fluidized saltmax resin that causes calcium and magnesium (hardness ions) to form into nano-crystals.
