Reduced opioid intake for pain*

EASY TO USE
Satisfaction on Ease of Use

RELIEF PROVIDED
Satisfaction with relief provided

TEMPERATURE
Satisfaction with desired temperature

* 380 of the 750 patients indicated they were taking opioids before ThermaZone was issued.

It's so much better than a heating pad or an ice pack as you can dial up or down the heat or cold as needed when you are using it and it's so easy to use. I have chronic pain and this device has been a life changing addition to my arsenal of therapy tools. The more I can manage my pain at home the better quality of life I have.

~April Pierce, USAF
