

for orthopedics

Featuring: Single Patient Use Pads

Administering cold
therapy post-surgery
just got easier.

The ThermaZone® Thermal Therapy Unit and Single Patient Use Pads are an efficient combination to administer thermal therapy. ThermaZone can be applied in the recovery room and is portable enough to take home for continued use. ThermaZone does not require ice. It operates on two ounces of distilled water and is virtually maintenance-free. ThermaZone has a broad temperature range from 34°F - 125°F, 20 comfort levels, and 5 pre-set timer modes.

ThermaZone®

ThermaZone is a powerful and compact device that uses thermoelectric technology to provide heating and cooling therapy where and when you need it, without the use of ice.

ThermaZone satisfies a clear unmet clinical need – targeted, localized, non-opioid therapy with consistent temperature management.

Temperature-controlled water flowing through welded microchannels

Our pads feature Motion Advantage™ technology, which leverages precise fluid movement to deliver uniform temperature distribution across the surface of the pad for maximum coverage.

ON/OFF control panel with mode and temperature control buttons

5 preset timer options

Lighted comfort level window display

Lightweight, easy-to-carry handle

Adapter plug for AC/DC power supply or auto power cord

Connector ports for easy connection to pads

Unit Size: 11" L x 4.5" W x 4.5" H
Unit Weight: 3 lbs. 7 oz.

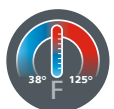

Compelling Features

- Non-opioid therapy
- Heat or cool therapy in one device
- 3 minutes to set up, requires only 2 oz. of distilled water
- Rapid achievement of temperature – 20 different comfort levels
- 5 preset timer options:
 - 10, 20, or 30 minutes
 - 30 minutes on and 30 minutes pause, or
 - 30 minutes on and 60 minutes pause

The Ice Age is Over!
No more ice.

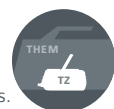

Broad Temp Range
Heats and cools; from 34°–125°F.

Consistent Temp
Maintains temperature as long as you need it.

Motion Advantage Pads
Targeted therapy. Designed by Surgeons.

Smaller by Design
Lighter and smaller for easy portability.

Single Patient Use Pads

ThermaZone Single Patient Use Pads have the water delivery system welded directly into the pad for the perfect fit. They are durable, yet disposable. Pad interior is coated plastic which helps prevent fluid transfer.
