TYPES OF PAIN REPORTED**

** Some patients reported multiple types of pain.

It's so much better than a heating pad or an ice pack as you can dial up or down the heat or cold as needed when you are using it and it's so easy to use. I have chronic pain and this device has been a life changing addition to my arsenal of therapy tools. The more I can manage my pain at home the better quality of life I have.

~April Pierce, USAF

• ICELESS • TARGETED • CONSISTENT •

ThermaZone offers a broad line of pain management pads from head to foot, all with one lightweight device! Our flexible, form-fitting pads provide uniform temperature distribution across the pad's entire surface for non-opioid, iceless, heating and cooling therapy at the push of a button!
