

Results were obtained from 226 head pain patients who freely participated in ThermaZone's product survey from 2020-2024.

Both heat and cool therapy in one device

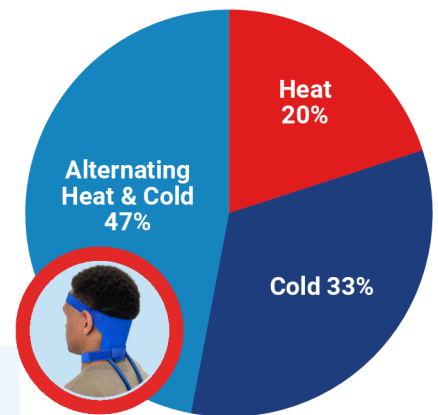

Survey respondents reported a significant preference for alternating temperature to manage head pain.

Front & Side Head Pad

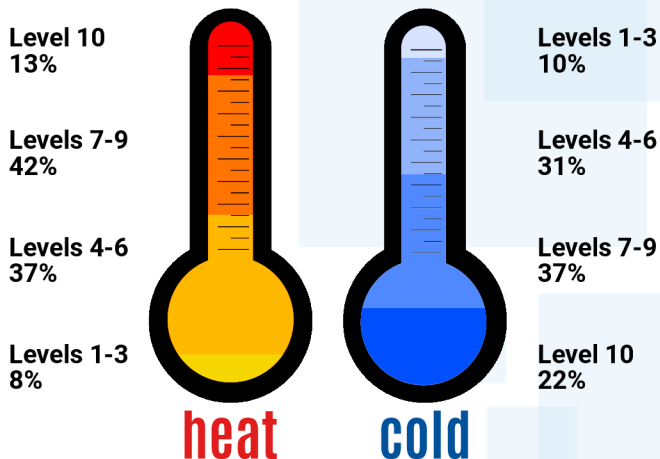

Eye Pad

Occipital/Rear Head Pad

20 comfort level options

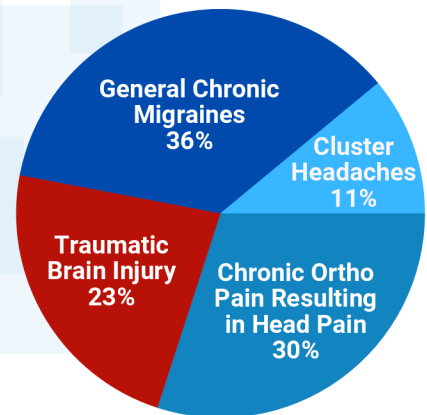

ThermaZone's broad temperature range, **34°** to **125°** F, adjusts to patient preferences. Middle temperature ranges were used most often.

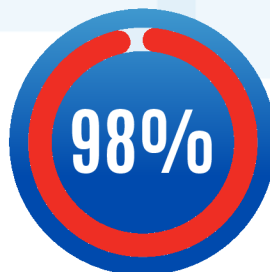

Treats more than head pain

30% of patients used ThermaZone to manage head pain caused by chronic orthopedic pain.

ThermaZone offers 3 head pads and 7 orthopedic pads to target key pain points with one device.
