Corporate Summary

Established in 2008 by a world-renowned surgeon, Innovative Medical Equipment, LLC (IME) has been on the FSS Contract since 2015.

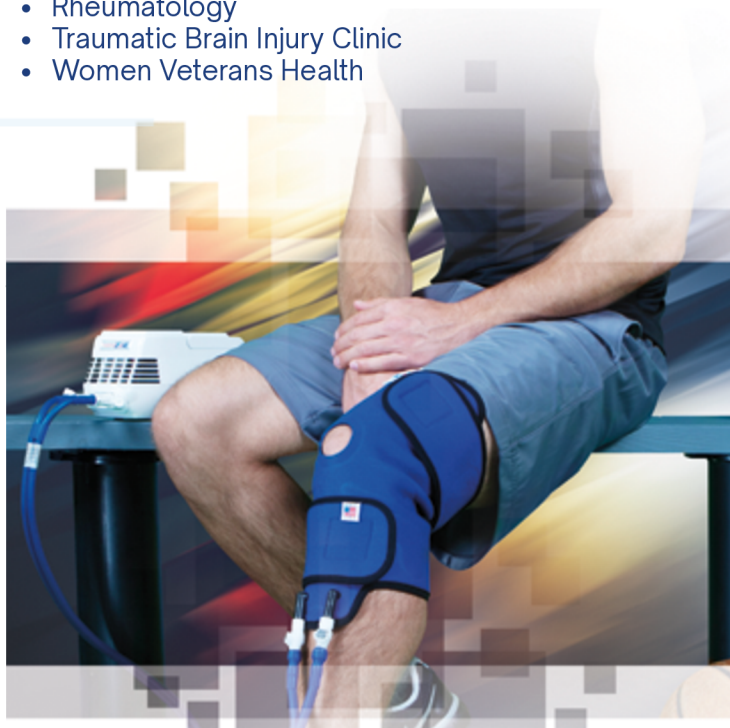

IME's flagship product, the ThermaZone® thermal therapy device, reflects a commitment to enhanced patient care. This opioid-free pain management modality offers an effective alternative or safe complement to traditional pharmacologic treatment.

With consistent temperatures, targeted therapy and iceless operation, ThermaZone is a safe, easy-to-use, pain management choice for patients who prefer or require a drug-free option (e.g., pregnant or breastfeeding women, patients battling addiction, substance abuse and/or medication overuse symptoms).

ThermaZone in Veterans Affairs

ThermaZone is currently prescribed in 200+ VA locations in the following departments:

- Chiropractic Medicine
- Geriatrics / Home-Based Primary Care
- Internal Medicine
- Neurology
- Occupational Therapy
- Orthopedics (post-surgical)
- Pain Management
- Physical Medicine & Rehabilitation
- Physical Therapy
- Primary Care
- Rheumatology
- Traumatic Brain Injury Clinic
- Women Veterans Health

Vendor Accepts Government Visa Credit Card

ThermaZone Products

ThermaZone® Motion Advantage™ pads are engineered to conform to specific anatomical pain points by combining soft, stretchable neoprene with flexible, welded microchannels. Leveraging thermoelectric technology, the ThermaZone device heats or cools a small amount of distilled water to the desired temperature and continuously circulates it through the microchannels, maintaining that temperature until the device is powered off.

Device

003-99

ThermaZone Device

Includes power supply, blue tubing, training guide and distilled water

Neoprene (Reusable) Pads

003-15

Sm. Shoulder Pad

003-20

Lg. Shoulder Pad
