

Summer 2022 Luther Glen Farm Internships

Luther Glen Farm is seeking enthusiastic and dedicated individuals to join our rapidly evolving farm for a full-time, paid summer internship.

Interns will live on site and join our vibrant summer community.

Luther Glen Farm is an ambitious project with a mission to *grow* and *share*, the abundance of creation and *teach*, ways to live in communion with the Earth. Interns will take part in this mission and gain practical experience in sustainable development, food justice and agriculture.

Interns will take part in a variety of tasks including but not limited to, working on the farm, harvesting crops, feeding livestock, teaching classes and creating new programs. Once hired, the interns will work with Farm leadership to develop a *covenant*, outlining the goals and outcomes to be achieved over the course of the internship. Covenants will be a collaborative blend of Luther Glen's hopes and expectations and each intern's learning goals. Once the covenant is complete interns will have an area of focus to work within. Potential *focuses* include; Educational Programs & Curriculum, Food Production, Regenerative Agriculture, Livestock, Food Justice, and Farm to Table Cooking. Note, this is a new program and it is the hope of Luther Glen that each intern receives the experience they desire.

Luther Glen Farm sits nearly a mile high on 40 sunny acres, in the heart of apple country in beautiful Oak Glen, California. The site features a fully booked retreat center as well as a summer camp program. Lutheran Retreats, Camps and Conferences does not discriminate against guests or staff on the basis of ethnic or racial identity, national origin, gender identity, age, disability, sexual orientation, or family status. For more information on the work of our organization visit [**LRCChome.com**](http://LRCChome.com).
