Opening Circle/Cacao Ceremony – Set Your Intention.

A cacao ceremony is an opportunity to connect to yourself and open your heart. Because of cacao's ability to increase your connection to your inner self and your heart chakra, it aids in any transformational shift you are working towards, whether you are looking to deepen your understanding of who you are, release old patterns and traumas, or move into a more self-confident space. Whatever your path, the intention is yours to set, and the cacao allows you to the insight and awareness to move towards that goal.

Latihan

Latihan is a meditation technique from the Subud (an Indonesian religious group). Latihan means "following inner guidance".

In Latihan, you stand silently and "open" to existence. Energy flows through you, taking any form, such as laughing, dancing, singing, crying. Anything can happen. Some people refer to it as authentic movement. By practicing Latihan, we throw away preconceived notions of sex and love-making and just hanging around in the unknown, authentically being in the body.

Hello, My name is **Matooka MoonBear**. I have journeyed Earth based spiritual paths for over 30 years from Native American, Hindu, Pagan spirituality to Witchcraft. In 2014 my path brought me to ISTA in Ireland where I took Level 1 & 2 side by side. It was here that I knew I had found tribe! Since then my ISTA journey has taken me many places as I apprentice with Laurie Handlers. I have assisted ISTA trainings in New England, Costa Rica, Montreal, New Jersey, & Guatemala. While in Guatemala, I attended Level 3 SSSeed. I have organized training in New England with the intention of breaking through puritanical thought in order to follow my vision for the future. That through this work, human relationship with self, Divine Feminine and Divine Masculine along and the Earth will be healed in the psyche of humanity as we move toward a more loving paradigm.

| <p>ZEGG Forum: Radical Intimacy through Radical Vulnerability in Community</p> <p>This edgy process is an exploration of the power of group synergy. We will be using one of the most potent tribal technologies in the field of personal growth, ZEGG Forum, to bond with each other and reveal whatever needs to be addressed. ZEGG Forum is a compassionate and transformative space for revealing whatever is hidden but influencing the common “field.” Forum can bring out issues of sex, power, money, competition, love, or any other aspect of consciousness – individuals’ process and</p> |  | <p>Sarah Taub, Ph.D. is a cultural activist whose passion is creating events where people transform. She teaches the skills of peaceful, sustainable community and relationships such as self-awareness, honesty, and clear boundaries, and facilitates group processes of many sorts, including sensuality and intimacy gatherings, consensus decision-making, ZEGG Forum, and conflict resolution sessions. For the past decade, Sarah has been a major organizer of Network for a New Culture's east coast events (www.cfnc.us) aimed at creating a culture based on awareness, compassion, and freedom rather than on fear and judgment. perspectives come forth and are held in compassion as part of the shared story of being human.

Our intention is to empower you with a hands-on experience of the transparency, vulnerability, and intimate potential of ZEGG Forum, so that you may see aspects of yourself that have been hidden. You'll also learn to hold space for others to see their own blind spots, and to build secure community bonds that allow individuals to emerge and shine.

One of the gifts of ZEGG Forum is that it allows us a space to appreciate every perspective without taking it on as “truth.” Every voice has its own poignancy, its own wisdom, its own truth, that does not negate the wisdom and truth of other perspectives. Allowing all voices to surface and be known can lead to a profound and unexpected integration within a community. We tend to think that events leading to painful experiences and conflicts are bad, because they feel bad in the moment. However, when we open ourselves and compassionately witness what is happening for everyone, these experiences can be gateways to greater closeness, understanding, and love. When conflict emerges, whether or not we are in a formal Forum space, we can choose to listen in this way. This deep listening sustains and nurtures community life and relationships.

Conscious Touch Lab: An Evening of Erotic Exploration

We begin with a Connection Ritual, entering into Sacred Space of Honoring ourselves and each other. From there we enter into a free flow of consensual explorations of the 4 quadrants of the Wheel of Consent. Leading with desire and allowing ourselves to savor and luxuriate in the deliciousness of sensation, we play with embodying more consciously and powerfully the roles of giver and receiver. Following the deep currents of our mutual pleasure, we consensually explore the rich terrain of ravishing and surrendering. Elements to tantalize all the senses will be provided.

Sensual Improv: Acting out our Desires, Fears and Boundaries

The Art of Connection; Merging Sex & Spirit

In a world of deep sacred Spiritual teachings our sexuality is often forgotten about and pushed aside.

How do we more deeply embody our sexuality in way that integrates and infuses with our spirituality?

Our lives are often filled with distractions, with chaos, with thousands of ways that pull us away from truly being present and loving with one another. This does not mean always having profound sexual intercourse, but rather let's look at the ways to deeply connect the infinite nature of our spirit, with the grounded nature of our sexuality. We will take a deep dive together in a group, as well as breaking off into pairs, to explore the art of true human connection.

Join Aaron in this transformational and experiential workshop playing with these two forms of sacredness in our life.

Nudity is optional. Be willing to trust the intuitive strength and knowingness of your soul, as you uncover and discover the parallel universes between your spirit and sex.

Aaron Kleinerman is a Transformational Sex & Relationship coach. He assists individuals from experiencing inner and outer chaos to true authentic power. He helps people to step boldly outside of their comfort zone and into their inherent creative and erotic genius. For over a decade now, he has dedicated his time and energy to perpetual self-discovery while coaching humans to awaken and remember their heart's wisdom. Aaron transformed from a licensed navigator of the seas to assisting people to navigate their lives. He is a global citizen who travels, teaches and educates in workshops, private sessions and retreats. In his own journey, he transcended massive inner chaos in his youth, to eventually experience and teach about life from the lens of love and perpetual evolution.

| <p>Touch is Puja- The art of partner Yoga</p> <p>Acro yoga is a combination of lineages: acrobatics, Thai massage, and movement the yoga is the union that combines them all. Working in partnership, we become a reflection to one another, like Prakriti and Purusa. The roles change as we move through space so as the leading. As the practice takes us out of our comfort zone, away from the solid ground, we learn to trust and be trustworthy. Create a conversation through the body, ask for what we need, and reconnect to our bodies. The acro practice itself is a play, fun, silly sometimes but within safe boundaries and constructed form - creating safety and trust. Acro teaches a safe, soft but firm touch we all need. Learning to listen through the hands, feet, listen with our eyes closed with our heart.</p> |  | <p>Yael BenReuven</p> <p>“Say Yes! Fly high” is a life motto for Yael. When Yael began her Yoga and AcroYoga journeys she had many “reasons” why she couldn't do it. Yoga philosophy however offers us the invitation to explore the game of life. “What’s next?” is Siva’s question. Yael’s teaching style draws from a lineage that includes Anusara and AcroYoga. She loves to weave in Yoga mythology stories, with rapt attention to students’ details of alignment, anatomy, and therapeutics, and exploring partner yoga through a dialogue of touch. AcroYoga began for Yael on Mother's Day several years ago, with a dive right into an Elemental Immersion. She realized immediately that softening and staying in communication were among AcroYoga’s greatest contributions to her practice, both in her life as a yoga teacher and as a mother.</p> |
