

November 2018

CHALLENGES TODAY....

- **Operating Costs**
 - Staff – cashiers as well as managers or supervisors
 - Keeping the business open
 - Counting the money
 - Having more & better control
- **Safety & security**
 - Against attack for staff, customers & cash
 - Against internal theft
- **Accuracy** of cash handling
- **Integrity** – note quality & counterfeit
- **Time** it takes to get from sale to your bank account
- **Accountability** - knowing who is doing what & when
- **Knowing** more about your business
 - When you are busy & when you are not
 - Where are the losses, with who?

Other Key Features & Benefits

- Accelerates deposit to account
- Improved Business visibility
- Reduces Cash handling time
- Improves accountability
- Increases Loss prevention
- Narrows errors
- Increases Business Security
- Allows unattended visibility
- Liability being intact
- Reduces shrinkage

Advanced Solution helps you move towards Efficiency, Visibility and Reliability!

From cash-in, to bank account all within 24 hours

Empowering features

**Powerful PC
with rich functions,
very fast response
& security monitoring**

**Independent electronic
control unit**

**Easy serviceability without
having to access safe*

Escrow with sensors
**Wide-area monitoring of jammed-notes*

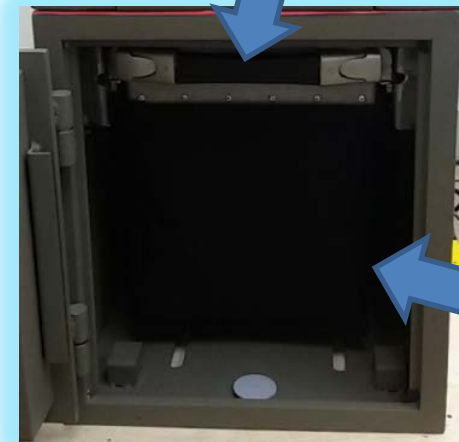

Specially design drop-in position

**Greatly prevents notes jamming*

Auto-sealed bag

**Automate bag collection process, greatly reduce time spent*

**Cash bag handling
module with sensors**

**Effective monitoring of in/out
status of cash bag and open/close
status of safe*

Specifications

NOTE PROCESSING		PHERIPHERALS	
Hopper Capacity	200 notes	Display	7" touch screen
Escrow Capacity	200 notes	Receipt Printer	56mm thermal printer
Speed	600 notes/ per minute	Networking	Ethernet
Operation Mode	mixed, by value	Options	3G/4G network or Wi-Fi
Function	deposit, envelope deposit, count, escrow, sorting		2D barcode scanner
Counterfeit Detection	UV/ IR/ MG Image/ CIS		magnetic card reader 1/2/3 tracks
Currency	HKD, RMB, USD, EUR, GBP & others		IC card reader
			security pin pad
SAFE & STORAGE (mixed denominations)		DIMENSIONS & WEIGHT	
Safe	steel 8mm	Dimensions (W) x (D) x (H) in mm	340 x 475 x 675
Lock	electronic keypad , mechanical lock		
Storage	high security auto-sealing bag		
Capacity (approx.)	3,000-3,500 notes	Weight (kg)	85
SYSTEM UNIT		OPERATION ENVIRONMENT	
CPU	Intel-based	Power Supply	AC110-220v (+/- 10%)
Memory	4GB RAM	Power Consumption	Sleeping modes≤15W
Storage	64GB SSD		Operation modes≤70W
Interface	RJ45, Serial Port, USB	Operation Condition	temperate 0-40°C
Operation System	Linux/ MS Windows		humidity 40-90%

CAPACITY

hopper 200 notes
 escrow 200 notes
 safe >3500 notes

SPEED 600 note/min

SIZE 34 x 48 x 68 cm

WEIGHT 85kg

OS Linux

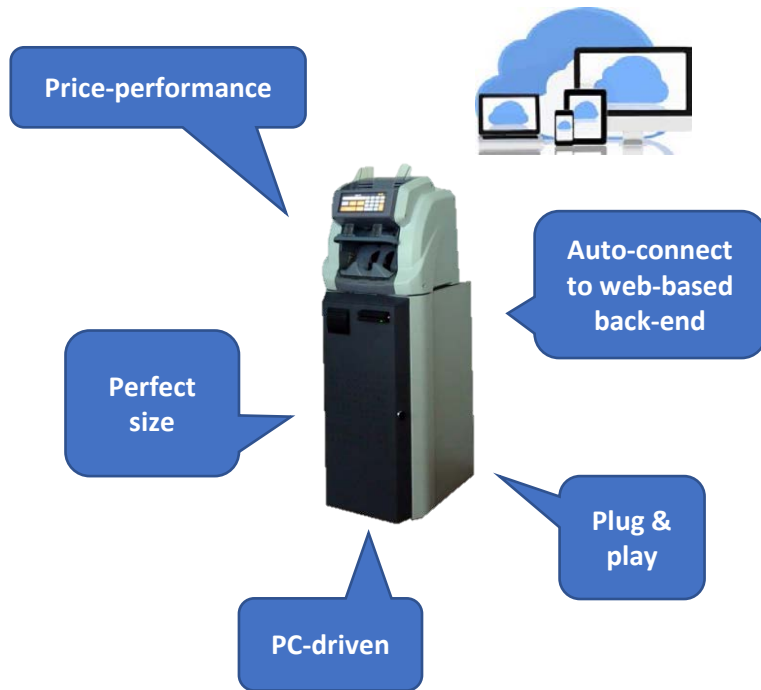

Options 3G/4G, Wi-Fi net
 Barcode reader
 Mag card reader
 IC card reader
 PIN pad

Data: 21 Machines surveyed, 24/11/2015 to 10/06/2018

“In general our assessment of the Safe is very positive, form and size are certainly conducive to the Convenience sector”

(*definition of Convenience is Petrol, Liquor, Fast Food and Late-night or 24x7 multi-consumables retail outlet).
