## Rich's Transformational Talk: Discovering Your Purpose On The Planet

Ever since I was a young boy, I had been telling everyone that one day I'd be working with **Bob Barker** at *The Price Is Right*. So, how did I know at such an early age what my destiny in life would be? The answer, I listened to and trusted what my intuition was saying. And by doing so, I was able to manifest my way toward the *Price Is Right* intuitive mandate that was revealed to me so early on. My journey was not always linear and the pathway was not always clear (two bouts with cancer and finding myself homeless in Hollywood) but by trusting my intuition I was able to stay on the life-path that my soul knew I should be on. - *Rich Fields*

*"Rich was riveting! One of the best speakers we've ever had! We're already booking him for next year."*

*John Mahaffey*

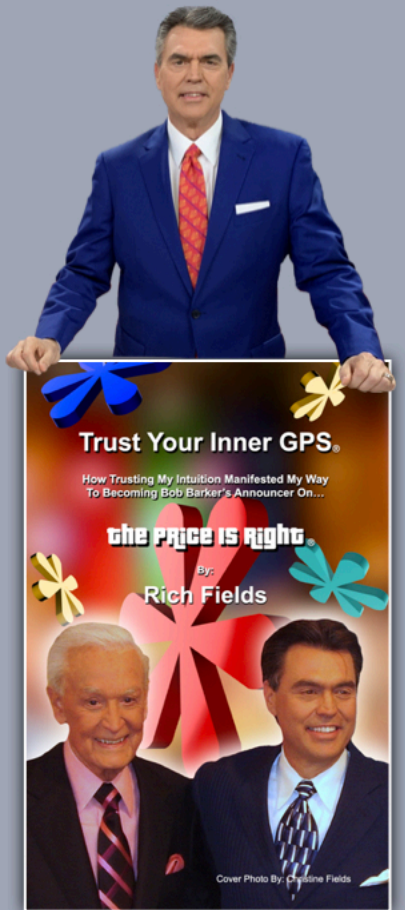

### Learner Objectives:

- That our intuition is really a Divine guidance system that is directly connected to our souls.
- That acting on what our intuition says will naturally lead us toward our goals in life
- How you can discover your ultimate purpose on the planet
