We work with nature – not against it.

We work with our partners – for the best quality from the region.

We are not allowed to use a bio-certification, as we are not a certified operation ourselves. However, that does not change the fact that we are fans and followers, and maybe someday even pioneers, of a sustainable, regenerative food culture. Even without certification, it is a MUST for us to work with sustainable partners. A sustainable origin is the basis for the quality of our snacks! We source our products directly from 100% certified operations. Our fruits and vegetables come from sustainable agriculture, are regional, and always vary seasonally. Naturally, our animal products come exclusively from sustainable producers. Make your own picture below of where our products come from ☺

Ham from free-range pigs in NRW from Bio-Fleischei Bernd Burchhardt, Essen

Grains and legumes from local agriculture, Good Crop

What is important to us? Practicing transparency regarding the origin of our products, their respectful processing, an open production chain in which people enjoy participating, resulting in a high-quality end product.

We believe you can truly taste the difference.

OUR PHILOSOPHY

With NEA The Deli & Urban Concept Store, we want to take you back to a time when fruits and vegetables were freshly picked from grandma's garden, hand-prepared, and served for lunch... It rarely tasted so good!

We source this field-fresh produce directly from the farms. Sometimes we even use rescued vegetables from regenerative and thus sustainable agriculture.

Every day, our team, our partners, and our suppliers give their best to provide you, our guest, with the best feeling and taste experience. And, practically, we are doing something good for nature and our environment at the same time.

Thanks to our regional approach, we have super short supply chains, as our farmers are right in the neighborhood. Moreover, we value their work and products, so we work with great respect and conserve resources. Many of our products are zero waste because grandma already didn't like waste.

We stand behind this ideal, with open arms, and warmly welcome you to experience that small changes and conscious thinking can be fun. Sustainability tastes fantastic and can also be modern and cool.

Our homeland connects, and shared meals connect. That's exactly what NEA The Deli & Urban Concept Store stands for.

We offer you enjoyment and consumption with a holistic social impact.
