

## QUENTLY ASKED QUESTIONS

### When do I need a bond?

Compliance with the Mecklenburg County Construction and Permit Fee ordinance, all persons, firms or corporations doing work within Mecklenburg County are required to post a surety or cash bond with Mecklenburg County Land Use & Environmental Services. The minimum amount of the bond posted will be \$1,000.00 for the towns and \$500.00 for work in the city of Charlotte or \$1,000.00 for the entire county.

**Bond Exception.** A bond is not required in connection with a permit issued to the owner-occupant of a single family dwelling for repairs, alterations or additions of that building or its accessory building; for construction or erection of its accessory building when such work does not exceed \$30,000.

### When is a N.C. State General Contractor License required?

Any contracted work of \$30,000 per project or more, with the only exception to this rule is if you own the property and live in as primary residence for a period of 12 months following the completion of the project.

### When does a permit expire?

Permits expire six months (180 days) after issue date if no work has commenced. Permits also expire when work has started but discontinued for 12 months (365 days) from the last inspection date.

### How do I determine what costs to include on my building permit?

The following represent typical examples of costs to be included on building permit applications:

- Design and costs associated with construction plans and specifications
- All building construction costs, including soil exploration, excavation, backfill, compaction, shoring deep foundations and shallow foundations
- Fixed or built-in equipment, including mechanical, electrical and plumbing (including kitchen equipment, elevators or lift equipment)

- Special inspections and structural tests
- Interior and exterior finishes
- Costs in place: including material, labor and equipment
- Overhead, profit and taxes

### When is a permit required?

Appropriate permits are required for any building construction, alteration, or repair involving new or changed uses of property (other than ordinary repairs). EXCEPTION: Permits shall not be required for any work costing \$5,000 or less, unless the work involves:

- The addition, repair, or replacement of load bearing structures;
- The addition or change in the design of a plumbing system;
- The addition, replacement or change in the design of a heating or air conditioning system;
- The addition, replacement or change in the design of an electrical system;
- The use of materials not permitted by the code;

### Can I do my own electrical, mechanical and plumbing work as home owner?

Yes, as long as this is your primary residence that you own, and only after passing an assessment exam with the county for each trade you wish to undertake.

### Do I need a permit for a shed or "temporary" structure?

Yes, a Zoning Use Permit from Zoning is required for structures 12 feet or less in any dimension. This permit assures that the structure is located far enough from property lines. A building permit is required for anything measuring over 12 feet in any dimension.

**APPLICATION FOR BUILDING PERMIT**

**Example**

**Code Enforcement** presents this guide to help you to understand what you need when applying for a building permit. Please refer to the illustration as an example only as each job may require more or less information. Remember:

- All additions to a house that will increase the foot print of the dwelling or detached accessory structure (garage, etc.) require a *Building Permit Application and Plot Plan Form*.
- Interior renovations such as finishing a basement, attic, kitchen etc. only require a building permit application.
- All building permits, regardless of the job type, require section 1, 2, 3, 7, 8, 9 (parts in red) filled in. Except for the utilities, in answering the questions refer to your project only, not the existing house. See the example given.
- All building permit applications need to be approved by the Zoning office first.
- Contract cost must include parts and labor at market cost. Free labor and material must be assessed at market cost before the application can be approved. Building permits must meet minimum construction cost approved by the County.

For all projects requiring electrical and/or mechanical and/or plumbing work, the contractor must be listed on the building permit application at the time the building application is submitted.

- Deck. Complete section 1, 2, 3, 7, 8, 9.
- Screen Porch. Complete section 1, 2, 3, 4, 7, 8, 9.
- Bathroom addition. Complete section 1-9.
- Finish Basement/Attic. Complete section 1-9
- Attached garage. Complete section 1, 2, 3, 4, 7, 8, 9
- Detached garage. Complete section 1, 2, 3, 7, 8, 9 and 4 if provided with electricity.
- New Residence. Complete section 1-9
- Kitchen renovation. Complete section 1-9
- Shed. Complete section 1, 2, 3, 7, 8, 9
