K5040 Guilford Road Pedestrian/Bicycle Improvements, Phase 3

A Public Informational Meeting was held for this project on Thursday, July 11th, 2024, at Bollman Bridge Elementary School, in Savage, MD. The purpose of this meeting was to present the preliminary design plans for proposed pedestrian and bicycle improvements along Guilford Road, between Oakland Mills Road and Carroll Heights Avenue, and to collect public feedback that may be incorporated into the project's final design.

Consistent with the County's Complete Streets policy, this project aims to facilitate safer travel for local commuters, bicyclists, and pedestrians in the area of Guilford Park and the new Guilford Park High School. Proposed design improvements along this section of Guilford Road include:

1. The installation of a shared use path to enhance pedestrian and bicycle mobility, and
2. The installation of new street lighting, signage, roadway striping, storm drainage, stormwater management facilities and landscaping along the proposed shared use path.

The project is currently in the preliminary design stage with construction anticipated in fall of 2025, pending land acquisition.

Any questions regarding this capital project can be directed to the Project Manager, Mr. Jacob Taylor, via email: jataylor@howardcountymd.gov
