USES/APPLICATION

Safe Haven Defense SW440RC laminate is applied onsite, to the **INTERIOR** of existing windows in commercial, municipal and residential buildings. Unlike traditional Safety/Impact Glass, no special modifications or retrofitting to existing structure needs to be done. Because our laminate can be applied over **existing glass as thin as ¼ inch**, customers achieve the end goal of hardening their structure at a significant cost savings to traditional Safety/Impact glass.

*existing window must be inspected to be structurally sound. Window must be free from debris and thoroughly cleaned prior to application.
