MY GALLERY

LANDSCAPE DECORATION AT ITS BEST

All these artworks are my creative designs, and are carefully welded by hand using electric welding.

I invite you to familiarize yourself with my artworks for the decoration of the garden, courtyard, terrace, as well as home or office.

All sculptures have a natural rusty coating, which gives them a unique rustic look. Rust "lives" and changes its color depending on age and weather conditions. No artificial coating can compare with natural rust in decorative possibilities.

The color of the rust can vary from bright ochre to black, each time adding an individual, special look to the sculpture.

Some sculptures have the peculiarity of playing with the wind. They move under the influence of the wind. I call them **Wind Catchers**, or **Breezy Dancers**.
