ABOUT SKIN BY HUSN

Skin by Husn is a Canadian-based skincare line founded by Husn, a professional esthetician with sensitive skin and hands-on experience working with a wide range of skin concerns. After struggling to find products that were both gentle and effective, she set out to create skincare that delivers real results without compromising skin health.

Each formula is developed using professional-grade ingredients, thoughtfully selected to support hydration, barrier health, and overall skin balance. Skin by Husn products are made in Canada and designed to be effective yet gentle, making them suitable for sensitive and reactive skin types.

Skin by Husn

OUR STORY

As someone who came to Canada as a permanent resident, I wanted to create something meaningful after becoming a Canadian citizen. Having seen how many skincare products in Canada are imported — from the USA, China, or Korea — I felt inspired to do something different. Rather than chasing trends or profit, my goal was to create skincare that is purely made in Canada, crafted with integrity, and created for my fellow Canadians.

Rooted in my own experience with sensitive skin and my passion for caring for others, Skin by Husn was built with kindness, intention, and trust at its core. Because taking care of your skin should feel nurturing, empowering, and joyful — not complicated or overwhelming.

OUR BRAND

At Skin By Husn Each formula is developed using professional-grade ingredients, carefully selected to support hydration, strengthen the skin barrier, and maintain overall skin balance. Proudly made in Canada, Skin by Husn products are designed to be effective yet gentle, making them suitable for sensitive and reactive skin types.
