Truck Identification Sticker Policy

Once this form is submitted and approved, Eco Waste will issue a unique identification sticker for each registered vehicle listed on this application. Stickers will be mailed to the billing address provided.

Each sticker must be permanently installed on the **driver-side dump body or driver-side cab area** of the truck so it is clearly visible to our cameras when entering the facility. These identification stickers allow us to properly track loads, verify authorized vehicles, and ensure accurate billing for contractor accounts. **All trucks entering under a contractor account must display their assigned sticker.**
