

Windsor Leadership Trust Bursaries 2024

These bursaries are awarded to senior leaders involved in agriculture to enhance and develop their leadership; the aims of the different level programmes are to 'Equip senior leaders to meet uncertainty with courage, resilience and insight.' The idea is to take those involved in agriculture away from their everyday lives into an environment completely divorced from farming and food production and be exposed to others' leadership practices from the military, clergy, charities, business and civil service amongst others.

Bursaries for 2024 were awarded to Rebecca Dawes, Clare Mike, Nicola Cannon and Eve Jefford.
