

## MY CHOICE

Words and Music by Timothy Carman/Leon Ellis

All those things that they did to me  
Were to improve my mind  
All those thoughts that I was thinking  
They told me they were lies

Seems that my only troubles  
Were deep inside my mind  
And if hell were to pay for it all  
That is the one thing that I had to decide

So that's the me that I'm talking about  
Is oh so I-me-mine  
With sticky fingers I will stick up my snout  
Pick what's already mine

Best now I listen what they say to me  
It's to improve my mind  
Faith's more than believing  
Faith's leaving fear behind

Just give me  
Two dozen  
Don't worry  
Need some more  
I'll get it  
Don't worry  
It's my choice to leave  
I've got it  
Let's get it  
You want it  
I need it  
Let's face it  
We know it  
It's my choice to leave

Don't have to imagine where my will would take me  
I've been there and it's black and blue  
Still nervous though I'm calmer  
Than I used to be- oh brother  
This ever-changing constancy

So yes it's hard to discover  
The truth you hold inside  
Just baby just baby  
Just baby just baby  
Just baby baby  
I me mine  
Ain't no good for you  
All the things that they did to me  
Were to improve my mind  
All the thoughts I was thinking  
They told me they were lies
