

Nobody But Myself

Words and Music by Timothy Carman/Leon Ellis

I got no troubles from my baby
You see she's reaching for my soul
And if you ever see my baby
Like no one ever seen before
And now my baby she is taken
And now baby's not my own

Well now my baby she's in trouble
And now my baby she's insane
And now my baby's she's awake
And now my baby she should wait
And now you baby she'll be suffering
Until my baby finds her way

Saw my baby for one day
See she keeps kicking on my door
And now the way that she's been troubling
I cannot take it anymore
She's been drinking from my well
I'm coming way before my baby

On my patience she should wait
And now my baby she should know
And now we're fighting to see each other
And I won't leave her no more
Never will we slip away
Never will we slip away
