

Way To Go

Words and Music by Timothy Carman/Leon Ellis

Dream of a time when we only looked for good
Gave all the best and of course it was understood

It seems the rug has pulled beneath my feet
And I've been called to answer no defeat

People come and people go
Ideologies up for grabs I know

Just remember to keep your head
Don't follow me and I can't be led

All my friends are dead
Unique survivors what they said
Million years- they'd never seen one
Another trip around the sun

Seems the ancients knew the way to go
No frills no races up the hill

Look inside for the answers that they don't know
Look inward- it's the way to go

All my friends are dead
Unique survivors what they said
Million years- they'd never seen one
Another trip around the sun
