

If I Loved You Baby

Words and Music by Timothy Carman/Leon Ellis

Heart full of rhythm
So full of class
You never lose

Heart full of rhythm
Soul full of class
You never lose

If I loved you baby
You'd know what they know
And not (be) blue

We could get together
Shake that down
Now the thing
Occurred with me
You know greed goes round

We could be going
To the moon

Me my name is trouble
So my chief
I never lose

Heart full of trouble
Soul full of class
Baby Don't know
If it could last
But it could
Two could never
One be found

Being in there together
Soulmate name
I gotta love

My baby said that
She would come right down
Never been worried
I'll be around
I'll be no more
To her day

Even though you love her
A home like this
Could be the day
