

Massachusetts Artificial Intelligence Conference for High Schoolers (MAICHHS)

William Zhang

Mission

- We bring together innovative minds in the field of AI to share and learn from each other.
- We provide opportunities for learning, inspiration, and networking.
- Promote interest in AI and computer science

Platform

- Headquarters is located in Boston, MA.
- Offer annual conferences on leading AI topics.
- Partnership with 7 school districts with more than 9000 students.

Founder of MAICHS

- William, Founder and President of MAICHS, is passionate about AI and the ways it can be used to change the world.
- Noticed lack of accessible resources for like-minded students.
- Founded MAICHS to inspire and connect kids passionate about math.

Challenges

- Finding Speakers
 - Emailing speakers
- Finding Sponsors
 - Contacting various corporations for donations and support
- Finding an Audience
 - Creating school representatives for easy local dissemination of information
 - Working with schools to promote event

Future Growth

- Plans to host first conference on June 8 at Weston High School.
- Reached out to school teachers to obtain building use approvals for conference.
- Continuing speaker, sponsor, and audience outreach.

Thanks!

William Zhang
