We Remember Claudia Vega

We were so very sad to hear of Claudia Vega's passing on Jan. 9, 2025. Claudia was a frequent guest at our monthly gatherings when we were associated with GWRRA and when we became a chapter of EWMA. Claudia and her friend, Robert, were at our annual Christmas Holiday party every year, including this past December, where she graciously accepted the invitation to play Mrs. Claus in one of our fun-loving, mental acuity games. As a long time, member of Chapter FL2-A, Claudia was always ready and willing to take an active role and participate in any activity that would elevate our motorcycle association and promote our mission statement of Friends, for Fun, Safety and Knowledge.

Over the past 15 years that I have been a member of Chapter FL2-O, Claudia has faithfully served the Florida District by teaching Rider Education and assisting her husband, Ray Vega, with ERC classes. After Ray passed away, she continued to teach CPR and first aid certification courses to all the chapters in the southern Florida District, including Chapter FL2-O. Our hearts go out to her family and friends and to all those chapter members whose lives she touched within the motorcycle community. We mourn her passing and pray that she will rest in peace.

Chapter Directors David Morris and Terry Henderson

EWMA Florida District 1st Ride of the Year - Shrimp “R” Us & More – Welaka, FL

FL2-O Treasure Coast Riders had five out for the event: Joe & Sandy Pisano, Phil Baxter, John & Peggy DuBose. Florida Assistant District Directors Harry & Lynn Anderson was the lead on the event. When Florida District Director Fred Kennedy was talking to us said they had 129. A good turn-out for “FRIENDS FOR FUN”. Our own Phil Baxter was one of the 50/50 winners of \$100. Phil, Peggy and John took pictures.

JANUARY 8, 2025 GATHERING/SOCIAL Notes: by Jim Rich

Another great turnout (24 members) and another great job by ACD Doug Goethel while our CDs were off cruising the Caribbean. Al Myrta Colussy's son Mark attended a previous meeting as a guest but arrived at the January Gathering as a full-fledged EWMA member; welcome aboard Mark Colussy.

Road Captain John DuBose reviewed some of the recent rides as well as scheduled rides and asked for suggestions, which came after the meeting and included the American Icon Brewery in Vero Beach and the New England Eatery (upon checking out the Eatery, they're no longer open for lunch). If you think of a good lunch spot or happen to eat in a spot you think everyone would enjoy, please email it to me ASAP (if you're like me you can remember something for up to 5 minutes on a good day). ACD/Webmaster Donna Goethel reported on the good count of hits on the FL2-O Webpage.

The question came up as to the day and time of the Gathering. If the start time were moved to 6:00 pm or to a weekend could the chapter attract some new members? Also, if the time and or day were to be changed how would potential members be made aware of the change.

Yours truly won a door prize while Joe Trotta's friend Lynn, who is now a member under Joe, won the 50-50 with big bucks, \$35.00.

Dan GW Tech – Don Service Manager – Mike Owner.

FL2-O Stuart “Treasure Coast Riders” Ride Report – Friday 10, 2025

Captains Gallery – Fort Pierce: FL2-O Stuart met-up with FL2-D Melbourne for brunch at the Captains Gallery, where some had breakfast and others lunch. We had good service and the food was good. It was a chilly morning to start the day off but it turn-out prefect day for riding. My Big Red went 125 miles today, John DuBose

FL2-O Stuart Riders: John, Jim and Joe

FL2-D Melbourne Riders: Harry & Lynn, Loraine, Paul and Tom

FL2-O Jim Rich and Joe Pisano

FL2-O Stuart: Jim– John – Joe with **FL2-D Melbourne:** Paul – Harry & Lynn – Loraine – Tom

SHOP TIP, cheap and easy

If you're like me, you probably have empty 5-gallon plastic pails in your garage, shop or utility room. I use them for projects and to store things in. After a few years the handles seem to break but the pail itself is very durable and seems to last a very long time. When the plastic handles crack and splinter there is no way to replace them, at least not to my knowledge. Carrying a full pail like with water the weight is concentrated in a small area the diameter of the wire handle and that hurts your hands especially if you have to go any distance. I needed to replace the handles and since replacements were not available, an idea came to mind. With some thick leftover 1/4" rubber fuel line in the garage from a past lawnmower tune-up, I cut off a piece about 3 1/2 inches long and then took a razor knife and cut it on one side lengthwise. Next, I slipped it over the wire handle on the pail then wrapped it with black electrical tape. If you don't have any fuel line you can go to a hardware or auto parts store and buy one foot of it, then you've got enough for three pails. I did this over two years ago and the new handle looks about the same as the first day it was installed. Not only does it look and work pretty good, it may outlast the pail.

Joe Pisano Chapter FL2-O

If you have a helpful tip, please e-mail it to me by the 25th of the month so I use it in the FL2-O Newsletter. Pictures are always helpful. John DuBose
FL2oRoadCaptain@comcast.net

FRIENDS FOR FUN, SAFETY AND RIDING

WHEN IN DOUBT, DOWNSHIFT

by Jim Rich

Honda motorcycles have had a reputation for being bulletproof, unlike some brands that have a reputation for having parts fall off along the way. Because Honda has that reputation the Honda engineers were amazed when they started receiving reports of engine failures. The engineers embarked on an in-depth study of the engine failures and found, almost without exception, that lugging the engine, causing extreme stress, had been the cause of the failures. Various excuses arise, such as “I save gas by staying in a higher gear,” or “I save effort by not bothering to shift,” but when the engine drops below a certain RPM (2,500) and you need to accelerate, it is time to downshift. Of course, a computer solves that issue with the new automatic transmissions being installed on a lot of the newer models. Long live your Honda engine.

Evel Knevel doing a wheelie! Jim Rich keeps both wheels on the ground, how about you?

FRIENDS FOR FUN, SAFETY AND RIDING

Note from Chapter Ride Coordinator John DuBose: Jim Rich Assistant Ride Coordinator and I will be planning FL2-O Treasure Coast Riders rides for the season. **Please look for Jim's emails listing times and location.** It's always nice if you **RSVP** so we have a head count for restaurants. We're looking forward to riding with you. A couple of notes: we always **plan a pre-ride meeting before KSU (Kick-Stands-UP), full tank of gas and empty blander.**

February, 2025

Florida District Safety/Ride Coordinators Safety Article

Greetings to all,

One of EWMA greatest asset members has left us. Claudia Vega passed away on January 9th, 2025. She was the Florida District First Aid/CPR HSI Coordinator. A position she loved and excelled at. Claudia was a life-long member of GWRRA and then EWMA. She will be sorely missed. We ask that any members that have already signed up for the First Aid/CPR Class on March 12th at the Florida District Rally to please send me an email so we are sure no one gets left off the roster. You can notify us if you are attending the Class at: Dominickfide@gmail.com.

SEARCH, SETUP & SMOOTH

Many riders across our great country are putting their motorcycles away for the winter. Here in Florida we get to take our bikes out, for some great riding weather. We get to wear all our protective gear without feeling too hot and have some fun riding.

Having some fun usually involves some nice curvy roads. Here is a review on how to safely negotiate a curve:

SEARCH: Look ahead to determine the sharpness of the upcoming curve. Look first for any warning signs that give you an idea of how sharp the curve is. If there aren't any warnings signs look to see if you can see the exit of the curve. If you can't see the exit of the curve, slow down your entry speed before you enter. Braking and choosing a lower gear should always be done while the motorcycle is still straight up before you start to lean. You can always safely accelerate once you are in a curve and realize you can go faster.

SETUP: Enter to the outside of the curve so you can see the furthest around the curve searching for the exit. This will allow you to see potential hazards sooner and give you a smoother path of travel. You should always knock off enough entry speed so you can gradually accelerate as you go around the curve. This pushes the contact patch of your tire down onto the pavement giving you maximum traction.

SMOOTH: A minimum of a steady throttle is recommended. A gradual acceleration of the throttle is better. Stay to the outside edge of the curve until you can see the exit. At that point is where you can make your cut to the inside of the curve and accelerate out. That would be the apex of that particular curve. You are using the Outside-Inside-Outside method of negotiating that particular curve. Every curve should be evaluated by using that same method.

Enjoy the cool weather and enjoy the ride.

Ride safe, Dominick & Diane
