

Call for Sponsorships

The International Thin-Film Transistor Conference (ITC) 2026 brings together thin-film transistor (TFT) academics and experts from around the world to share recent developments for progressing large area electronics applications. As TFT applications broaden and expand beyond traditional markets, the 20th ITC will provide a platform for sharing the research progress and discussing the challenges in this field.

ITC 2026 invites organisations in related fields to sponsor and exhibit at the conference. ITC is the ideal venue for introducing the latest developments to the attending international researchers and engineers, in-person and online. Mutual benefits extend beyond product and service advertising, to collaboration and technology transfer opportunities.

We are confident that the keynote talks, invited talks as well as the quality of papers will make 20th ITC a successful and top scientific and industry event. As a sponsor, your company will benefit from all the visibility opportunities offered by this success and gain access to researchers and directors from the world's leading manufacturers and R&D institutes.

Sponsorship Packages	Cost (RMB)
Diamond	70,000
Platinum	50,000
