# The Night Shift: Night-time Pollinators & Moon Gardens

What are crepuscular animals and insects? Hint: active at night. Join Master Gardener Susan Radovich as she delves into the busy creatures that come alive while we sleep. Learn about the best plants for creating a moon garden that will allow you to enjoy your garden in the diminished light.

Presented by LCMGA's very own Susan Radovich. She has been a Master Gardener for 20 years and has earned her advanced EMG Gold 1,000 badge.
