THE ART OF GROWING FOOD

The "Art of Growing Food" brings art to the vegetable garden through plants, structures, and classic European potager design. In this lecture, Ellen will share kitchen garden designs to inspire the audience with fresh ideas. Whether renovating an existing garden or revitalizing your

edible landscape, this lecture offers plenty of hands-on advice to elevate the ordinary to the extraordinary.

A kitchen garden is where the home and the garden merge, and Ellen's six steps to successful kitchen garden design, will show us how to design and grow a garden that is both beautiful and bountiful. Learn what to grow for the best flavor and fragrance, and how to design the garden for beauty and productivity and to be a sanctuary of outdoor living.
