

## **Private Home Accommodations and Details:**

This Divine abode is ready for your arrival. This home is nestled within minutes of Oahu's most pristine beaches on the east shores of the island. With panoramic views of the ocean along with majestic mountains of the celestial ones. This private home accommodates 6-7 people comfortably. All bedrooms come with private in-suites, beautiful views, private bathrooms, kitchenette and everything you can wish for. The energy of this home is exquisite for this type of celestial work that will take place. With ample communal space and private pool and private sundeck, this home was built with your need for deep rest and replenishment in mind. We support unplugging as much as possible, therefore there are no televisions, although Wi-Fi is available throughout the property.

The home is not a bed and breakfast, nor a nightly stay. It is an intentional space to host healing work with a variety of modalities. You will find access to natural outdoor spaces, a soothing waterfall with a pond, a private pool, a dedicated treatment room for therapy sessions, a steam room, nurturing gathering spaces, and small touches that help you feel right at home. It is small and intimate and intended to be a reprieve from the modern world. A welcoming home for the modern spiritual traveler.

Due to the contour of the land and limited availability of space, there are no tourist services or hotels in the area. With one restaurant about 5 minutes away and the town of Kailua about 10 minutes away where you can find Wholefoods, Down To Earth, other groceries stores along with restaurants and all other conveniences. We unfortunately will not offer any shuttle services to and from town and should you require anything from town Uber is always available.
