

Regulating our Regulators

Savings Tracker

The links below will take you to Uswitch/Confused.com price comparison pages for the relevant monthly bills. Compare and save now.*

Monthly Bill	Potential Annual Saving!	Actual Saving	Tips
Energy	£161		Low standing charges are better for lower usage households, focus on low unit rates if you're a high usage household.
Broadband	£720		Package deals offer the better rates if you're interested in broadband, TV and phone services. Never let your contract reach it's end date, find a new deal first or your prices will rocket!
Home Insurance	£100+		Increased voluntary insurances always lead to reduced premiums, it might be worth considering.
Car Insurance	£523		Again, increased voluntary excesses are helpful for reducing premiums. You can also pay your car insurance in one lump sum rather than monthly, which will reduce the cost.
Mobile (Handset)	-		Brand loyalty often leads to paying a premium for a similar product, with most of us sticking with the big 2. Consider looking at a new brand, like Google, Sony, Huawei or Honor.
Mobile (SIM Only)	£120+		If you've finished paying off your handset contract, save some money and cut your bill by moving to a SIM-Only contract and keep that paid-off phone for as long as possible.
Boiler Cover	-£43 35% off exclusive discount code: REGULATORGUY		Getting your boiler covered is actually a small additional expense (about £3 per month) but it can save £100s if your boiler breaks down unexpectedly. If your boiler is more than 5 years old, it's worth considering.
Pet Insurance	£20		As an insurance product, this is also reduces if you increase voluntary excess payments.
Total	£1,641		

Running price comparisons on all your bills may take an hour or so if you look at all of the bills in the table above, but you could potentially **cut your annual bills by as much as £1,600 per year!**

The links in the table above will take you to price comparison services with either Uswitch or Confused.com. Use the links to start a price comparison, switch and save money on your bills, then come back and fill in the table to see how much you've saved!

Either tackle this one bill at a time over a few days or find yourself a 2-hour window to sit down and tackle the whole list. Fill in the table as you go and you can feel proud of how much you've saved by the end of the end of the process!

***DISCLAIMER:** The links in this table are affiliate links. This means that if you click them, run a price comparison and ultimately switch service provider, I will receive a commission. This commission helps fund the regulatory work that I do. **The commission does NOT increase the price you pay for the services**, you'll see the same prices whether you go through the link above, through the price comparison site directly or if you go direct to the service provider.
