## HOW TO RIDE IN SANTINI CUSTOM

### 1-REQUEST A QUOTE

- E-mail [customclothing@santinisms.it](mailto:customclothing@santinisms.it) or complete our on line form

### 2-FEEL THE DIFFERENCE

Call or email us to receive a sizing kit for you to try or get visited by one of our agents! You will then be able to do a fitting session with your team, see the superior quality of our products and really feel the difference!

### 3-GET YOUR CUSTOM CLOTHING DESIGNED

Once you confirm that you're happy with the quote, our team of experienced designers will work on your design, starting from your team's colours and logos. You will receive front, back and 3/4 3D images of your custom kit, together with a rotational video and the full artwork. The 3D gives you a realistic view of the kit allowing you to check logos positioning and proportions perfectly.

OUR DESIGN SERVICE IS FREE OF CHARGE.

### 4-CONFIRM YOUR DESIGN AND PLACE YOUR ORDER

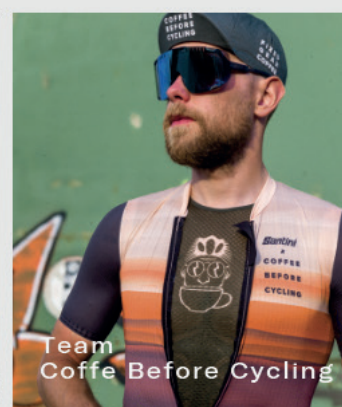

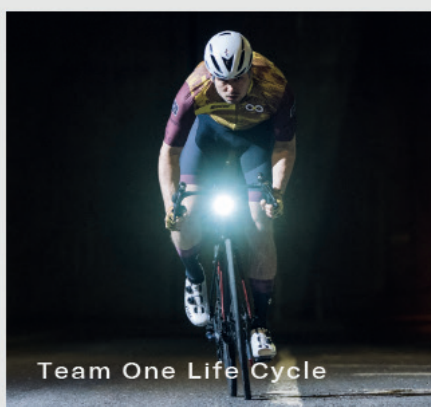

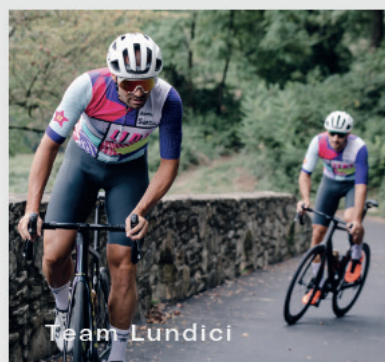

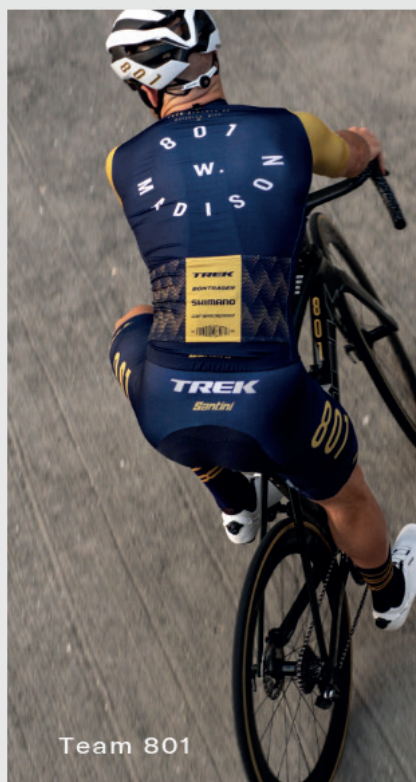

Once you are happy with your team kit design, you are ready to place your order and we will start the production process in our factory in Bergamo. Our standard time for production is 60 days from the design and order confirmation.

### 5-RECEIVE YOUR CUSTOM CLOTHING

Once your order is produced, we check all the products to make sure they are compliant with our strict quality standards and prepare them to be shipped to your address. You are now ready to receive and enjoy your new Santini Custom kit!

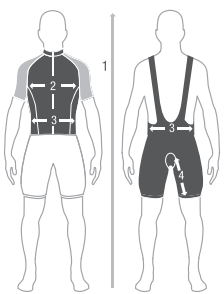

## GET INSPIRED!

Over 1000 teams choose Santini custom every year! Get inspired by their designs!

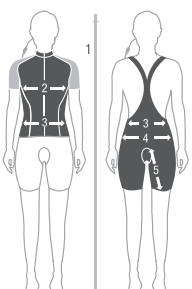

# SIZE GUIDE

Wearing the right size is key to have a much better experience on your bike, in terms of comfort and performance. When you ride you don't want distractions. You just want to feel your muscles work, your steady breathing, your heart beating, enjoy the view and think about nothing. Choose the right size following our size guide and consult our fit guide to make sure you get the fit that works for you.

**Man**

# FIT GUIDE

When we develop our collection's tops we do it working on three different fits that define every line within the collection; SLEEK, SLIM, CLASSIC. Have a look at our jersey fit guide below to understand how the different fits work! Remember to check on the product page the FIT icon and to choose your size according to how you want it to fit on your body! Use this guide to find the fit that is right for you!

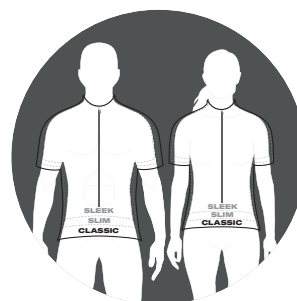

**SLEEK FIT**

Skintight fit, shorter on the front and elongated in the back. Developed with riding position in mind to maximize aerodynamic properties. This is the fit that our pro athletes use for racing. If you prefer a less tight fit, we suggest choosing one size larger.

**SLIM FIT**

Form fitting jersey. Remains close to the body minimizing wind resistance in the saddle. This is the fit that defines Santini. Incredibly versatile as it gives you a sleek profile while maintaining incredible comfort throughout your ride.

**CLASSIC FIT**

Regular fitting jersey. Soft on the body for those who look for a more classic fit. If you like a jersey with Classic fit but you prefer a tighter fit, we suggest choosing one size smaller.

# CYCLING SEAT PADS

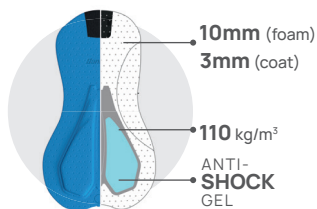

Each and every Santini seat pad is designed and engineered by our expert team and are the result of extensive studies and testing with our pro athletes to guarantee unrivaled fit and maximum protection over medium and long distances.

3

LONG DISTANCE

## C3 SEAT PAD FOR MAN

SUGGESTED  
RIDE  
DURATION

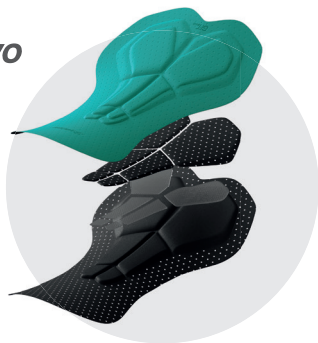

### SEAMLESS MULTIPLE DENSITY HIGH SHOCK ABSORPTION GEL PROTECTIVE SHELL

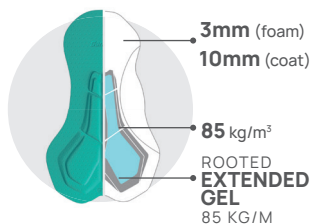

C3 is an endurance high performance chamois, ideal for long hours in the saddle. The C3 chamois is constructed by using an innovative process called Carving. This special technique allows the pad maximum shock protection, incredible lightness, breathability, and perfect fit because it adheres better to the body allowing freedom of movement. The Rooted Gel located in the ischium (sit bones) area allows for neutralization of vibration when the pad is under stress.

GI<sup>Tevo</sup>

LONG DISTANCE

## C3 SEAT PAD FOR MAN

SUGGESTED  
RIDE  
DURATION

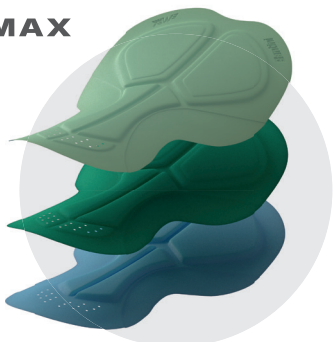

### MULTI DENSITY CONSTRUCTION ANTI-SHOCK EXTENDED ROOTED GEL

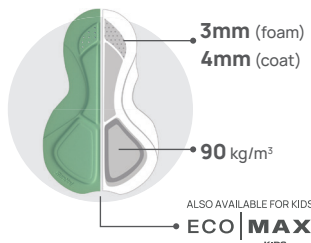

GI<sup>Tevo</sup> is our most versatile gel core chamois. All-round comfort for all types of riding. GI<sup>Tevo</sup> is the technological evolution of the original GI chamois with Twist Gel silicone core that absorbs shock steadily and gradually. GI<sup>Tevo</sup> offers added performance with its new carved construction process that is able to create thicknesses without seams and stitching, reducing the weight and increasing the softness of the padding.

ECO | MAX

MEDIUM DISTANCE

## C3 SEAT PAD FOR MAN

SUGGESTED  
RIDE  
DURATION

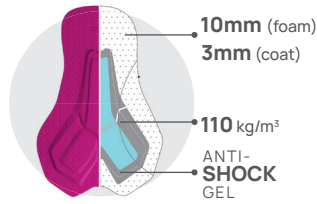

• ECO FRIENDLY •

### ANATOMICALLY CUT INCREDIBLY LIGHT MADE FROM PLANT SOURCED CELLPUR FOAM

Our new ECO MAX seat pad has been both ergonomically and ecologically redeveloped. The structure of the thermally shaped seat face aids blood-flow, reducing numbness; while the perforated front section enhances airflow and cooling. The smooth, hydro-repellent face material is made from a unique fabric utilizing Amni Soul Eco® yarns, enabling an accelerated level of biodegradation when the product finally reaches its end-of-life. The foam, forming the central portion of the seat pad, called Cellpur®, is created from Tencel®; a 100% naturally derived cellulose fiber, highly anti-bacterial with superb degrees of breathability, and comfort.

**C3W**

LONG DISTANCE

**C3 SEAT PAD FOR WOMEN**SUGGESTED  
RIDE  
DURATION**SEAMLESS MULTIPLE DENSITY  
HIGH SHOCK ABSORPTION GEL  
PROTECTIVE SHELL**

C3 is an endurance high performance chamois, ideal for long hours in the saddle. The C3 chamois is constructed by using an innovative process called Carving. This special technique allows the pad maximum shock protection, incredible lightness, breathability, and perfect fit because it adheres better to the body allowing freedom of movement. The Rooted Gel located in the ischium (sit bones) area allows for neutralization of vibration when the pad is under stress.

**GILevo**

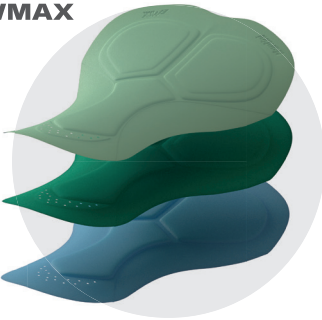

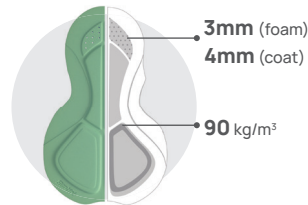

LONG DISTANCE

**C3 SEAT PAD FOR MAN**SUGGESTED  
RIDE  
DURATION**MULTI DENSITY CONSTRUCTION  
ANTI-SHOCK EXTENDED  
ROOTED GEL**

GILevo is a feminine chamois with an extremely versatile gel heart. All-round comfort for any type of cycling activity. Extremely high performance chamois thanks to the innovative Carving process that is able to create thicknesses without the need for seams or glue. The carving process reduces weight while increasing the softness, elasticity and breathability of the pad.

**ECO | WMAX**

MEDIUM DISTANCE

**C3 SEAT PAD FOR WOMEN**

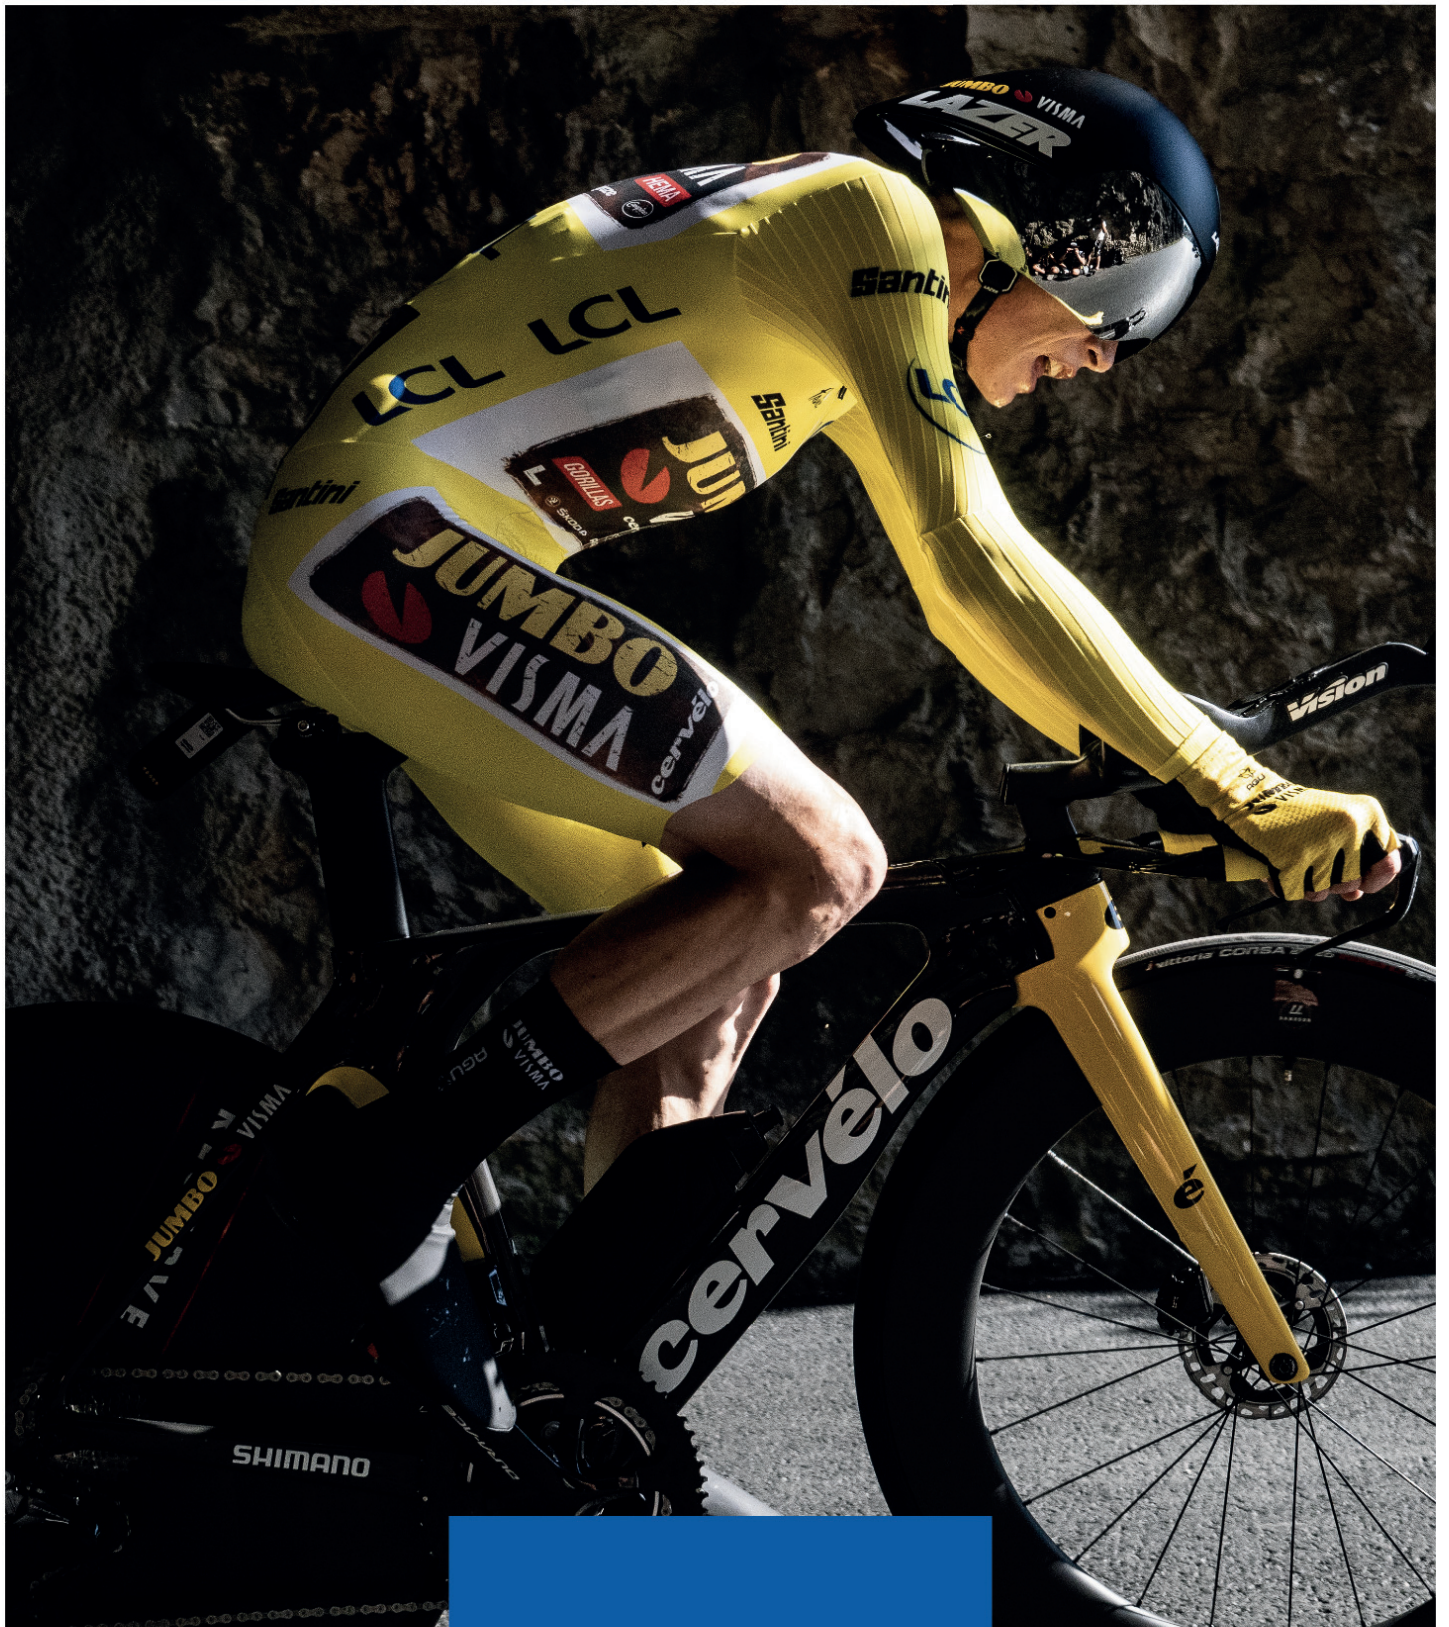

SUGGESTED  
RIDE  
DURATION**ANATOMICALLY CUT  
INCREDIBLY LIGHT  
MADE FROM PLANT SOURCED CELLPUR FOAM**

Our new ECO MAX seat pad has been both ergonomically and ecologically redeveloped. The structure of the thermally shaped seat face aids blood-flow, reducing numbness; while the perforated front section enhances airflow and cooling. SLEEK FIT

WORLD TOUR

CODE: 9C 890 -- SPEED -- 1P

This TT speedsuit is the result of extensive research and development based on:

1. Analysis of the structure of the materials to find the best combination of fabrics, cut, and fitting. The research is aimed at finding the material that by elasticity, position and structure positively affects the air flow that comes in contact with specific parts of the body, creating a sort of continuous micro flow that acts as an aerodynamic boost.

2. Testing in the laboratory and in the wind tunnel of different prototypes to find which is the best solution for the best performance, resistance and stability in each situation.

This is a piece of art and science, worn by the leaders of the Tour de France and now available also for you.

No technical description needed.
