Riding in Cooler Weather: The Rewards and Dangers for Motorcyclists

Angela and I, along with dozens of other Bikes & Trikes of all Makes and Models, attended the Fall Ohio District EWMA Color Ride hosted by OH Chapter B Directors Ted and Joyce Strutz.

The Group that Angela and I rode with was led by Al and Cathy Nighswander. Cathy provided colorful commentary, every pun intended, and Al provided a route that was second to none.

As motorcyclists, it's essential to embrace the rewards while respecting the dangers. By staying informed, investing in appropriate gear, and adjusting your riding habits, you can enjoy the thrill of the open road while staying safe and comfortable.

Here, we'll explore the rewards of riding in cooler weather, as well as the potential dangers that every rider should be mindful of!!!!
