

Safe Travels!

Hi Gang,
I had the opportunity recently to ride up to Toronto, Canada and visit with my IBM Manger. It was a great day for a ride. I noticed that Canada also has very large electronic billboards that send the message to drivers to watch out for motorcycles, which as we know is appreciated by all of us.

I also came across several drivers in both the US and Canada that came a bit closer to my Wing than I was comfortable. And it got me to thinking about the flipside, so I have decided to review this topic:

“Watch out for Distracted Drivers”

The following observations are not limited to cars and pickups. These apply to our local package truck drivers, food delivery service drivers and even those big over-the-road semi-truck drivers as well.
