## CANDACE L. SIDNER

### **Brief Bio:**

Candace L. (Candy) Sidner has a long-standing interest in human communication and collaboration, and their application to agents, and interfaces, especially those using gesture, social behavior, speech, and natural language.

Candy is a retired Research Professor at Worcester Polytechnic Institute, with extensive experience in industrial labs, and as an independent consultant. She was PI of the Always On Relational Agent project with Chuck Rich at WPI and Tim Bickmore at Northeastern University, Co-PIs and co-PI for the ONR-sponsored WPI project Collaborative Robot Learning from Demonstration Using Hierarchical Task Networks. She has worked on multimodal (including gesture) interfaces using a humanoid robot for the role of engagement in conversation, and on interfaces, including those with speech, involving collaborative interface agents using DISCO.

Candy is a Fellow and past Councilor of the Association for the Advancement of Artificial Intelligence, was elected a Fellow of the Association for Computational Linguistics in 2013, and is a senior member of the IEEE. She serves on the editorial board of the Springer journal of Multimodal User Interfaces. She has been an associate editor of the journal ACM Transactions on Intelligent Interactive Systems, an associate editor of the journal Artificial Intelligence (2008-2012), a member of the scientific advisory boards for Intelligent User Interfaces, SIGDIAL, HLT-NAACL, and the EU Cognitive Systems for Cognitive Assistants (CoSy) project. She has served as general chair for HLT-NAACL 2007, program co-chair of Intelligent User Interfaces 2006, SIGIAL 2004, chair of Intelligent User Interfaces in 2001, program chair for ACL 1987, and President of the Association for Computational Linguistics (1989).
