DR LAWS™

"WHY CAREER EVALUATION & EXPLORATION IS IMPORTANT"

COPYRIGHT DR LAWS PP3 2025

Have you ever wondered what your purpose is in the world? What makes you uniquely great? What you should become?

God made each and everyone of us special…

With interests

Aptitudes

Abilities

Talents

To accomplish the innate callings within our hearts

Our innate callings lie deep in our hearts. They were there at our inception and remain within us until we leave this world.

They are the things we love. We can never truly rest until we fulfill them through our works.

Two Proverbs that speak of the necessity of making work plans for our lives …

In fulfilling our callings, we can better navigate through life.

Proverbs 29:18

Without a vision (Clear direction, purpose) people perish (cast off restraints/experience their loss of a sense of direction)

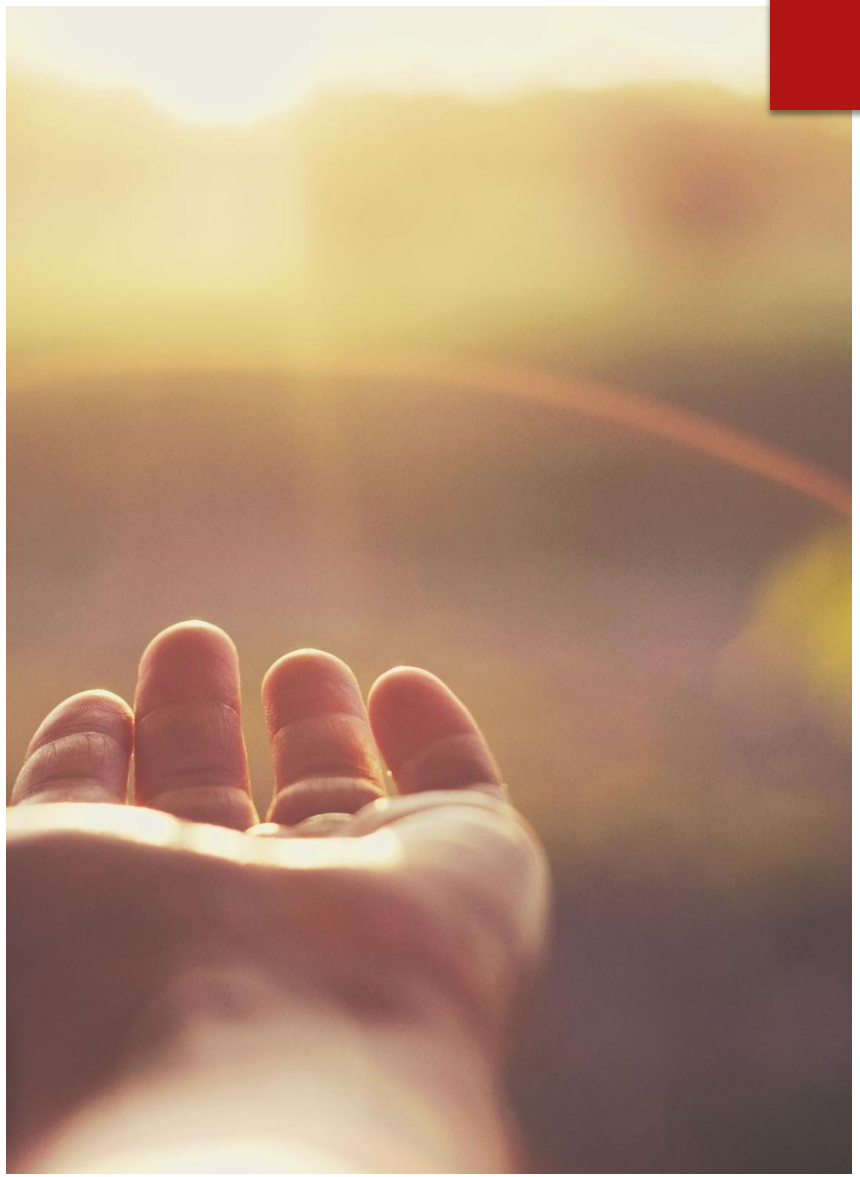

Pursuing our callings is foundational to our mental health

Proverbs 16:3

Commit your works unto the Lord and your

thoughts (plans)

shall be established (accomplished).

Without foresight as to what we plan to do in our lifetimes, we can fall into despair:

With pains we need not bear…

Wasting - Time

Wasting - Energy

Wasting - Money

Taking the time to do "thorough" Comprehensive Career Evaluations & Career Explorations helps us to save our valuable limited:

- Time
- Energy
- Money

Our work is waiting for us to fulfill it and settle in our place in the world

DR GW Carver

"Anything it will give up its secrets to you if you love it enough"

Awaken your awareness…

…To confirm your calling

Seek for the occupation that that you are called to do and you shall find it
