

LET NOTHING STOP THEM.™

For Pain

For Anxiety

For Insomnia

For Depression

Alpha-Stim®

Why Not Treat It All at Once?

Relieve pain, anxiety, insomnia and depression quickly and safely with Alpha-Stim®

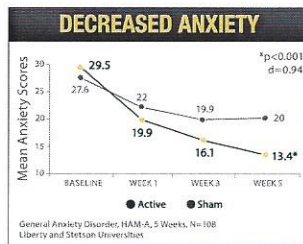

The brain functions electrochemically and can be readily modified by electrical intervention. Alpha-Stim utilizes Cranial Electrotherapy Stimulation (CES) and Microcurrent Electrical Therapy (MET) to deliver the only patented waveform which is clinically proven in over 100 studies to significantly decrease pain, anxiety, insomnia, and depression.

- Cumulative in effectiveness, with most patients showing improvement after the first treatment
- Safe, with no serious adverse events reported in over 35 years of clinical use
- Used as a first-line therapy, or as an adjunct to pharmacotherapy (without polypharmacy side effects)

PROVEN: Alpha-Stim Significantly Reduces Pain, Anxiety, Insomnia, and Depression

In a study of severe pain patients, Alpha-Stim reduced pain by an average of 71% after only 5 treatment sessions¹

After 5 weeks of treatment, the active Alpha-Stim CES group reported an average decrease of 94% in their anxiety²

Service members experienced an average increase of 43 total minutes of sleep time after only 5 Alpha-Stim treatments³

After 5 weeks of treatment, the active Alpha-Stim CES group reported an average decrease of 75% in their depression²
