

Introducing CAREPRP

Unleash the Potential of PRP | CAREprp.us

PLATELET-RICH PLASMA (PRP) concentrates platelets, growth factors and more to harness the body's natural repairing mechanisms. Our FDA-cleared **CAREprp™** system encompasses a breakthrough design to deliver high quality and versatile autologous PRP.

CAREprp™ employs an elongated, hourglass-shape taking advantage of the natural separation of blood that occurs with centrifugation for in-office PRP processing. CAREprp™ utilizes a provider-directed locking feature to seal off contaminants and securely access the golden plasma solution. The unique tube design and strategic openings allow for customized concentration collection levels and leukocyte-poor or -rich PRP for personalized care.

Convenient and sterile system

Short centrifuge cycle, revealing...
