Title: Take Our Border Back Movement Announces the Formation of the Take Our Border Back Summit North America Alliance

CANADA, USA, & MEXICO: 2024 Events at the Northern and Southern Borders: “Breaking Bread, Table Talk, & Prayer”

Following the success of the Canadian Trucker Convoy in Feb of 2022, America was inspired to conduct their own convoy and rallies in Texas, California, and Arizona, on February 3, 2024. These

“Take Our Border Back” Convoy events generated approximately 10,000 attendees with 100 million reached worldwide through social media, broadcast TV/Radio, podcasts, and print media. Today the Take Our Border Back Steering Committee announces: **Take Our Border Back Summit North America Alliance**. This alliance includes representatives from Canada, the USA, and Mexico, all united by their shared concerns of the devastating impact of open borders, illegal mass migration, compromised election integrity, and the hidden Global agenda being implemented under the current administrations.

“We The People of North America” will PEACEFULLY AND LAWFULLY gather at the Northern and Southern borders of our three countries throughout 2024, for “**Breaking Bread, Table Talk, & Prayer**” to restore the sovereignty of our nations, hold governments accountable, and restore democracy. **Take Our Border Back (TOBB) Summit North America Alliance** will provide resources, strategies, and action plans to empower and equip citizens to bring their shared concerns to the table and hold each country’s government officials, at all levels, to the rule of law within each nation.

The TOBB Summit aims to spotlight and challenge policies that have facilitated the unprecedented migration of millions of undocumented migrants, predominantly military-aged men. The Alliance also highlights the severe societal impacts of mass migration - including escalated human trafficking, the surge in fentanyl deaths, skyrocketing rates of violent crime, crippled social programs, and compromised elections.

Kim Yeater, the TOBB Steering Committee Director emphasized the broader agenda of the Alliance, to restore human rights, fundamental freedoms, the rule of law, and democratic power to the citizens of our three great countries. In addition to addressing mass migration, discussions will cover the integrity of elections and separation from globalist, supranational organizations like the WHO, UN, WEF, and IMF. Sandra Compton from the Mexican delegation added, “We are called to oppose these globalist agendas vigorously and uphold the sovereignty of our nations.”

Events are planned across North America; California, Texas, Arizona, Montana, Ontario, and Alberta, taking place June through November 2024. They will include participants from all three countries, demonstrating a unified stand against current policies. Following the successful lawsuit to have the invocation of the Emergencies Measures Act against the Canadian truckers declared illegal, now is the time for Canadians, Americans, and Mexicans to unite and demonstrate the strength and resolve of free people. We must prevent the social, economic, and cultural genocide of North America.

Now is the time to hold our governments accountable.
