INDEPENDENT AUDITOR'S REPORT

To the Village Council Village of Unionville Unionville, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of Village of Unionville, Michigan, as of and for the year ended March 31, 2021, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Village of Unionville, Michigan, as of March 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 22, 2021, on our consideration of the Village of Unionville, Michigan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village of Unionville, Michigan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village of Unionville, Michigan's internal control over financial reporting and compliance.

Village of Unionville, Michigan Management's Discussion and Analysis

The management of the Village of Unionville presents to readers of the Village's financial statements this narrative financial information. It contains an objective overview and analysis of the financial position of the Village as of and for the year ended March 31, 2021. As management of the Village, we encourage readers to consider information contained in this discussion and the Village's financial statements, which follows this section.

Financial Highlights

- The Village's assets exceeded its liabilities at the end of the fiscal year by \$2,503,827.
- Net position decreased by a total of (\$14,579), or by approximately 0.6% of last year's total net position of \$2,518,406.
- The fund balance of the Village's General Fund increased by \$25,172. The fund balance for the other Governmental Funds (Major Street, Local Street, and Municipal Street Funds) decreased by (\$12,872) due to planned street projects.

Financial Statements Overview

This Management Discussion and Analysis serves to introduce the reader to the Village of Unionville's essential financial statements. These financial statements consist of three components as follows:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

The above financial information will provide the reader with a general understanding of the Village's current financial condition. Also, this report contains required supplementary information in addition to the basic financial statements which provides a more detailed understanding of the Village's finances.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances, similar to private sector businesses.

The **Statement of Net Position** presents information on all of the assets and liabilities of the Village, with the difference between the two identified as net position. Over a given period of time increases or decreases in net position can serve as a useful indicator of improving or declining financial position of the Village.

The **Statement of Activities** shows changes in net position that occurred during the most recent fiscal year. These changes were recorded on an accrual basis, which distinguishes between the time when a financial transaction occurs and when payment is actually made. An example of accrual accounting is when debt interest payments are scheduled between the fiscal year ends. The Statement of Activities will show additional interest expense for the time period between the last interest payment and the end of the fiscal year as an accrual.

Village of Unionville, Michigan Management's Discussion and Analysis

The government-wide financial statements, are broken down into two activities; Governmental Activities and Business-type Activities. Governmental activities are primarily supported through tax and intergovernmental revenue. Business-type activities are primarily supported through user fees and charges.

Governmental activities for the Village of Unionville include general governmental functions, such as Administration, Village Buildings and Grounds (General government); Police and Fire (Public safety); Major Street, Local Street, Municipal Street, Public Works and Park (Highways and public improvements). Business-type activities include the Sewer and Water systems.

Fund Financial Statements

A fund is a set of closely related accounts that are used to maintain control over resources that have been segregated for specific activities or purposes. The Village of Unionville uses fund accounting to demonstrate compliance with legal financial requirements, like all state and local governments. All Village Funds can be categorized as either governmental or proprietary funds.

Governmental Funds account for essentially the same activities as the Governmental Activities in the Government-wide financial statements, but with a narrower focus. Governmental Funds concentrate on near-term inflows and outflows of financial resources and the balances of spendable resources available to the government at the end of the fiscal year. This information can be useful in evaluating the government's short-term financing requirements.

Comparing similar information presented in the government-wide financial statements for the Governmental Activities with that presented in Governmental Funds financial statements can provide useful information because the different focus of the two approaches. With the long-term focus of the government-wide financial statements, a reader may be able to better understand the long-term effects of the near term financing decisions. To aid in the comparison, both the Governmental Fund balance sheet and the Governmental Fund statement of revenues, expenditures and changes in fund balance show a reconciliation between the Governmental Fund financial statements to the Governmental Activities in the government-wide financial statements.

The Village of Unionville uses four different individual Governmental Funds. The Village considers all the funds to be major funds of the Village of Unionville. The funds are presented separately in the Fund Financial Statements. The Village adopts an annual appropriated budget for all its Governmental Funds.

The basic governmental fund financial statements can be found as listed in the table of contents.

Proprietary Funds include enterprise funds and an internal service fund. Enterprise funds are used to report any activity for which a fee is charged to external users for goods or services. The Internal Service Fund is used to report activities that provide goods or services to other funds or departments of the Village.

Village of Unionville, Michigan Management's Discussion and Analysis

The Enterprise Funds maintained by the Village of Unionville include the sewer and water funds. The Village uses the Internal Service Fund to account for vehicles and equipment activities. Because they charge fees and charges to outside users of their systems, the Enterprise Funds are included in the Business-type Activities column of the government-wide financial statements. The Internal Service Fund, which accounts for equipment and vehicles that support the Village functions, is included under the Governmental Activities column.

Proprietary Funds present the same information as in government-wide financial statements, except in more detail. The fund financial statements for proprietary funds provide separate information for the Sewer and Water funds which are considered to be major funds of the Village of Unionville.

The basic proprietary fund financial statements can be found as listed in the table of contents.

Notes to the Financial Statements contain additional financial information to give the reader a complete understanding of the information contained in the government-wide and fund financial statements. Although these Notes provide detailed explanation and information related to the financial statements, this information is typically easy for the reader to follow. Notes to the Financial Statements are located after the financial statements as listed in the table of contents.

Village of Unionville, Michigan Management's Discussion and Analysis

As shown in the Statement of Net Position provided, the largest portion, by far of the Net Position of the Village of Unionville is its investment in capital assets. The Village of Unionville uses these capital assets to provide essential services to citizens who live, work or visit the Village. These assets, by design, are not available for future spending. Additionally, even though these capital assets are reported net of any related debt, resources needed to repay this debt must come from other sources, as these assets cannot be used to satisfy their related obligations.

Activities, Governmental and Business-Type

Net position of Governmental Activities increased by \$13,747 for the year ended March 31, 2021. This is approximately a 1.2% change from beginning net position. The increase is primarily attributed to infrastructure additions in major and local streets.

Net position of Business-type Activities decreased by (\$28,326) for the year ended March 31, 2021. This is approximately a 2.1% change from beginning net position. The decrease is due to less revenue in the water fund and additional repairs in the sewer fund.

Village of Unionville, Michigan Management's Discussion and Analysis

Financial Analysis of Village of Unionville's Funds

The Village of Unionville's governmental funds provide information on the short-term resource inflows and outflows and account balances at the end of the fiscal year. The total fund balance is a measure of total available resources and the unassigned portion of this total is a measure of the available spendable resources as of March 31, 2021.

For the year ended March 31, 2021, the Village's governmental funds reported a combined fund balance amount of \$514,234, of this amount \$239,462 is unassigned, approximately 117% of the annual general fund expenditures. The fund balance increase for the current fiscal year was \$12,300.

Governmental Fund Budgetary Highlights

The major difference in the original versus final budget was in public works for wages and equipment rental. The major and local streets amended their budgets for chip and seal of various streets. See page 18 for variances.

Capital Asset and Debt Administration

The Village of Unionville's investment in capital assets, net of related debt, for its governmental and business-type activities combined totaled \$1,724,011. The types of assets in this category are land, buildings, machinery and equipment, park and recreation equipment, roads and sewer collection system and water supply system. The Village's investment in capital assets equals approximately sixty-nine percent (69%) of total net position.

Net book value	\$	709,071	\$	1,269,055	\$	1,978,126	\$ 2	2,077,239		

The Village of Unionville's debt consists of water supply system revenue bonds (\$254,115), note payable – truck (\$44,971), and compensated absences (\$1,576). Normal payments of principal and interest in accordance with the associated debt service schedules were made during the fiscal year.

Village of Unionville, Michigan Management's Discussion and Analysis

Economic Factors and Future Budget Issues

The fiscal year overall budgets for 2020-21 were \$596,643 in revenue with anticipated expenses of \$575,454. Actual revenue was \$571,717 and expenditures came to \$588,097 which was \$45,700 under the overall budget. The fiscal year overall budgets for 2021-22 are set at \$614,458 with anticipated expenses of \$548,067. The Village of Unionville has set their new budget for a \$66,391 surplus. This is designed to give some leeway for emergencies.

The Village continues to evaluate its storm sewer infrastructure with continued plans of repairs and upgrades. All three wells have been pulled recently and the preventative maintenance and inspection of the water tower was done in 2018. The Village has finished purchasing new water meters and is expected to complete the replacement in the 2021-2022 fiscal year.

The Village continues to update and enhance the Village Park. In addition, the Village is committed to upgrading the Village streets and sidewalks.

The Village has purchased a new 2020 Freightliner dump truck that replaces the 1994 Ford dump truck.

The cost of health insurance has increased slightly this year, and continues to be a strain on the budget.

Requests for Information

This financial report is designed to give the reader a basic understanding of the Village of Unionville's finances. Any questions or requests for financial information contained in this report may be obtained by contacting the Village Clerk, Village of Unionville, 6454 Merry Street, Unionville, Michigan 48767.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Village of Unionville operates a council-president form of government under provisions of a revised charter, and provides the following services as authorized by its charter: public safety, (police and inspection), highways and streets, sanitation, water, parks and recreation, public improvements, planning and zoning, and general administration.

The Village's financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The accounting policies of the Village conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The more significant accounting policies established in GAAP and used by the Village are discussed below.

Reporting Entity:

This report includes all of the funds of the Village of Unionville. The reporting entity for the Village consists of (a) the primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A legally separate organization should be reported as a component unit if the elected officials of the primary government are financially accountable to the organization. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government. A legally separate tax exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization; (3) the economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. Based upon the application of these criteria, the Village has no component units.

Government Wide and Fund Financial Statements:

The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Village's public safety and general administrative services are classified as governmental activities. The Village's sewer system and water system are classified as business-type activities.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Government Wide and Fund Financial Statements: (Continued)

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Village. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those which are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they become available. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The use of financial resources to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as an expenditure. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as an other financing source. Amounts paid to reduce long-term debt of the Village are reported as a reduction of the related liability, rather than as an expenditure in the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt-service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (Continued)

State revenue sharing, charges for services, and earned but unreimbursed state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Property taxes are measurable as of the date levied (assessed) and are recognized as revenues when they become available. Available means when due, or past due, and received within the current period or collected soon enough thereafter (within 60 days) to be used to pay liabilities of the current period. All other revenues are considered to be measurable and available only when cash is received by the Village.

The accounts of the Village are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund balance, revenues, and expenditures or expenses as appropriate.

The Village reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Special Revenue Funds</u> - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Major Street Fund and the Local Street Fund are special revenue funds used to account for revenue from State gas and weight taxes. The Municipal Street Fund is a special revenue fund used to account for revenue from a special tax assessed for street and sidewalk maintenance.

The Village reports the following major proprietary funds:

The Sewer Fund is used to account for the sewer operations in the Village and the Water Fund provides water to residents of the Village.

Additionally, the Village reports the following non-major fund type:

<u>Internal Service Funds (Equipment Rental Fund)</u> - Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the Village, or to other governments, on a cost-reimbursement basis.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments to the General Fund by various enterprise funds for providing administrative and billing services for such funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operation. The principal operating revenues of the utility enterprise funds and the Village's internal service fund are charges to customers for use of the system. Operating expenses for enterprise funds and the internal service fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets and Budgetary Accounting:

The Village Council follows these procedures in establishing the budgetary data reflected in the financial statements:

- In accordance with the Village charter, prior to March 31, the Village Clerk submits to the Village Council a proposed operating budget for the fiscal year commencing the following April
 The operating budget includes proposed expenditures and the means of financing them for the upcoming year, along with actual data for the preceding year. The Village Clerk submits the budget in summary form. In addition, more detailed line item budgets are included for administrative control. The level of control for the detailed budgets is at the department head/function level.
- 2. Public hearings are conducted to obtain taxpaver comment.
- 3. Prior to March 31, the budget is legally enacted through passage of a resolution.
- 4. Formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds.
- 5. Budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 6. Appropriations lapse at the end of each fiscal year.
- 7. The Village Council may authorize supplemental appropriations during the year. The budget was amended throughout the year at regular Village Council meetings.

Cash and Cash Equivalents:

Cash and cash equivalents of the Village include cash on hand and all deposits with financial institutions, including all certificates of deposit.

Receivables and Payables:

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Receivables and Payables: (Continued)

Other receivables at March 31, 2021 consist of billings for user charged services, including utility services.

The sewer fund loaned \$40,000 in April 2019 to the general fund to purchase a police vehicle. The loan will be paid back within five years. The loan calls for annual principal payments of \$8,000 plus interest charged at 2% per annum. The balance of this loan at March 31, 2021 is \$15,297.

Capital Assets:

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Infrastructure	10 to 50
Buildings	25 to 50
Office equipment	5 to 10
Machinery and equipment	5 to 10
Vehicles	5
Improvements other than buildings	15 to 20

Compensated Absences:

The Village of Unionville full-time employees are allowed to carryover a maximum of ten days (PTO) and comp time into a new fiscal year. Paid time off may be accumulated up to a maximum balance limit for any employee of thirty-one days (248 hours). The compensated absences accrual for the year ended March 31, 2021 is \$1,576.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Long-term Obligations:

In the government-wide financial statements, long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Equity Classifications:

Government-Wide Financial Statements

Equity is classified as net position and displayed in three components:

- 1. Net investment in capital assets Consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less any unspent debt proceeds.
- 2. Restricted net position Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- 3. Unrestricted net position All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Financial Statements

Governmental fund equity is classified as fund balance. In accordance with Governmental Accounting Standards Board Statement No. 54—Fund Balance Reporting and Governmental Fund Type Definitions, the Village classifies governmental fund balance as follows:

- 1. Nonspendable—Includes fund balance amounts that cannot be spent either because they are not in spendable form (inventories) or because legal or contractual requirements mandate funds be maintained intact (contractual obligations).
- 2. Restricted—Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Equity Classifications: (Continued) Fund Financial Statements (Continued)

- 3. Committed—Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action at the highest level of decision making authority. The Village Council through a formal action (ordinance or resolution) commits fund balance amounts for the Village. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which is subject to the constraints, may be determined in a subsequent period. Any changes to the constraints imposed require the same formal action of the Village that originally created the commitment.
- 4. Assigned—Includes spendable fund balance amounts that are intended to be used for specific purposes that are not considered restricted or committed. Fund balance is assigned through formal action (ordinance or resolution) by the Village Council for specific purposes. Assignments may take place after the end of the reporting period.
- 5. Unassigned—Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any other governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

The Village considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Village would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

Proprietary fund equity is classified the same as in the government-wide financial statements.

Property Taxes:

Property taxes attach as an enforceable lien on property as of December 31. Village taxes are levied on the following July 1 and are payable without penalty through September 15. The Village bills and collects its own property taxes. Village property tax revenue is recognized as revenue in the fiscal year levied. The delinquent taxes of the Village are purchased through a revolving fund by Tuscola County and are therefore included as revenue in the fiscal year levied.

Use of Estimates:

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statement. Accordingly, upon settlement, actual results may differ from estimated amounts.

Subsequent Events:

The Village has evaluated subsequent events through July 22, 2021, the date that the financial statements were available to be issued.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 2 – BUDGET COMPLIANCE:

P.A. 2 of 1968, as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated. In the required supplementary information, the Village's expenditures and budgeted expenditures for the budgetary funds have been shown on a line item basis. The approved budgets of the Village for these budgetary funds were adopted to the activity level.

During the year ended March 31, 2021, the Village incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated, as follows:

<u>Fund</u>	Total <u>Fund Appropriations</u>		Amount of Expenditures			Budget <u>Variance</u>		
General Fund:								
Treasurer	\$	6,621	\$	6,709	\$	(88)		
Street lighting		13,815		13,935		(120)		

NOTE 3 – CASH AND DEPOSITS:

Michigan Compiled Laws Section 129.91, authorizes the Village to deposit and invest in the accounts of federally insured banks, credit unions and savings and loan associations; bonds, securities and other obligations of the United States, or an agency or instrumentality of the United States in which the principal and interest is fully guaranteed by the United States, including securities issued or guaranteed by the Government National Mortgage Association; United States government or federal agency obligation repurchase agreements; banker's acceptance of United States banks; mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan; and commercial paper rated by two standard rating agencies within the three highest classifications, which mature not more than 270 days after the date of purchase, and which involves no more than 50 percent of any one fund. Attorney General's Opinion Number 6168 states that public funds may not be deposited in financial institutions located in states other than Michigan. The Village's deposits are in accordance with statutory authority. The Village has authorized management to deposit and invest in the accounts of federally insured banks and savings and loan associations within the State of Michigan and bonds, securities and other obligations of the United States, or any agency of the United States in which the principal and interest is fully guaranteed by the United States. The Village's deposits and investments are within the authorization as set forth by the Village of Unionville. The Village's investment policy does not identify interest rate risk, foreign currency risk, or concentration of credit risk.

The carrying amount of cash and deposits with financial institutions of the Village of Unionville amounted to \$802,032 at March 31, 2021. The total bank balance as of the same date was \$807,533.

Deposits with financial institutions are categorized as follows:

Amount insured by the NCIU	\$ 290,294
Amount insured by the FDIC	501,928
Uncollateralized	15,311
Total deposits with financial institutions	\$ 807,533

The cash and deposits include restricted cash in the amount of \$26,000 for bond debt reserve for the Village.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 4 - CAPITAL ASSETS: (CONTINUED)

Depreciation expense was charged to functions/programs of the Village as follows:

Governmental activities:

General government	\$	2,801
Public safety		8,090
Highways and public improvement		18,577
Recreation		16,168
Equipment rental service		17,472
Total depreciation expense - governmental activities	<u>\$</u>	63,108
Business-type activities:		
Sewer	\$	51,300
Water		32,914
Total depreciation expense - business-type activities	\$	84,214

NOTE 5 – LONG-TERM OBLIGATIONS:

Water Supply System Revenue Bond, Series B:

The Village of Unionville received two separate bond issues for the construction of the water improvement project. The bonds are single, fully-registered, non-convertible bonds. The first series of Series B bonds was issued under Ordinance No. 141 in the amount of \$267,000. The second series of Series B bonds was issued under Ordinance No. 142 in the amount of \$204,000.

The principal and interest payments shall be payable out of net revenues derived from user fees. The bonds bear interest at the rate of 4.5% per annum. Interest is payable on June 1 and December 1 of each year. Principal payments are payable June 1 of each year. The bonds are serial bonds and are issued in chronological order. The following is a schedule of payments for the bond issues:

Years Ending				
<u>March 31,</u>	Į	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2022	\$	13,000	\$ 11,435	\$ 24,435
2023		13,000	10,850	23,850

2026		16,000	9,005	25,005
2027-2031		85,000	33,956	118,956
2032-2036		74,115	14,511	88,626
2037-2038		25,000	 1,800	 26,800
Totals	\$	254,11 <u>5</u>	\$ 101,457	\$ 355,572

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 5 - LONG-TERM OBLIGATIONS: (CONTINUED)

Other long-term obligations:

On July 19, 2019, the Village entered into a purchase agreement to acquire a Freightliner truck. The loan is due in annual installments of \$16,351 through July 18, 2023 at an interest rate of 4.472%. The balance as of March 31, 2021 was \$44,971. The following is a schedule of payments for this loan:

Years Ending							
March 31,	<u>F</u>	<u>Principal</u> <u>Interest</u>			<u>Total</u>		
2022	\$	14,339	\$	2,011	\$	16,350	
2023		14,981		1,370		16,351	
2024		15,651		700		16,351	
Totals	\$	44,971	\$	4,081	\$	49,052	

The following is a summary of the changes in the long-term liabilities during the year ended March 31, 2021:

Water supply system	<u>2020</u>	<u>Add</u>	<u>itions</u>	Re	ductions	<u>2021</u>	Due Vithin <u>ie Year</u>
Revenue bonds							
Series B #2	\$ 130,115	\$	-	\$	8,000	\$ 122,115	\$ 8,000
Series B #3	137,000		-		5,000	132,000	5,000
Note payable - Truck	58,696		-		13,725	44,971	14,339
Compensated absences	 804		772			 1,576	
Totals	\$ 326,615	\$	772	\$	26,725	\$ 300,662	\$ 27,339

NOTE 6 - CONTINGENT LIABILITIES:

The Village is a reimbursing employer for purposes of unemployment insurance claims against the Village. The Village reimburses the State of Michigan for all benefits charged against it in the event of termination of employment and subsequent claims of its employees. The contingent liability for unemployment insurance claims is not recognized in the accompanying financial statements. This expense is recognized as incurred.

NOTE 7 - RISK MANAGEMENT:

The Village of Unionville purchased commercial insurance coverage for property, general liability, and medical insurance for employees, and coverage for losses related to worker's compensation claims. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

NOTE 8 – UPCOMING ACCOUNTING PRONOUNCEMENTS:

Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*, was issued by the GASB in June 2017 and will be effective for the Village's 2023 year end. The objective of this Statement is to increase the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use the underlying assets. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

NOTE 9 - RISKS AND UNCERTAINTIES:

Risk Factors: Although we are monitoring the effects of a widespread outbreak of a contagious respiratory illness caused by a novel coronavirus (COVID-19), we cannot predict whether, for how long, or the extent to which the outbreak may disrupt our operations. A prolonged outbreak could negatively impact the economy of the surrounding area leading to a recessionary period for the State of Michigan which could drastically impact state revenue sharing amounts distributed to local authorities, decreased property tax values in the Village and surrounding areas, and adversely affect our results of operations. Any adverse impact on our results of operations, business, or financial outlook could be material.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Village Council Village of Unionville Unionville, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of Village of Unionville, Michigan, as of and for the year ended March 31, 2021, and the related notes to the financial statements, which collectively comprise Village of Unionville, Michigan's basic financial statements and have issued our report thereon dated July 22, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Village of Unionville, Michigan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Village of Unionville, Michigan's internal control. Accordingly, we do not express an opinion on the effectiveness of Village of Unionville, Michigan's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings that we consider to be significant deficiencies. (2009-1, 2009-2).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Village of Unionville, Michigan's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Village of Unionville, Michigan's Response to Findings

Village of Unionville, Michigan's response to the findings identified in our audit is described in the accompanying schedule of findings. Village of Unionville, Michigan's response was not subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Nietzke & Faupel P.C. Nietzke & Faupel, P.C.

Pigeon, Michigan

July 22, 2021

SCHEDULE OF FINDINGS YEAR ENDED MARCH 31, 2021

FINDINGS-FINANCIAL STATEMENTS AUDIT

SIGNIFICANT DEFICIENCIES

2009-1 Preparation of the U.S. GAAP Basis Financial Statements

Condition: Along with assisting with the year end closing procedures to the Village's accounting records, we also assisted the Village by preparing the annual financial statements (including related notes) of the Village prepared in accordance with generally accepted accounting principles.

Criteria: The responsibility for the Village's annual financial statements prepared in accordance with generally accepted accounting principles rests with the management of the Village. Management is also responsible for the system of internal accounting controls used to ensure that the financial statements are not materially misstated.

Effect: This situation could allow the misstatement of the financial statements.

Recommendation: We recommend that the Village acquire the expertise necessary to prepare the annual financial statements including the required disclosures in accordance with generally accepted accounting principles.

Response: We are aware of this deficiency and believe it is not cost beneficial in our situation to acquire this expertise. We will continue to use our external auditors for this technical assistance. We would expect this situation to be ongoing in future years.

2009-2 Preparation of Year End Closing Procedures

Condition: This year, as in the past, we assisted the accounting staff with the basic yearend bookkeeping and accounting procedures that are necessary to prepare the books for audit purposes. This also included the preparation of several material year end adjusting entries that were necessary to keep the financial statements from being materially misstated.

Criteria: The accounting staff should be able to perform the year end closing procedures and prepare the appropriate year end closing entries in order to ensure that the year end financial statements are not materially misstated. Also, the year end closing procedures should be supervised and reviewed by Village employees with an adequate knowledge of the Village's activities during the fiscal year.

Effect: This situation could allow the misstatement of the financial statements.

Recommendation: With adequate training, the accounting staff should become familiar with the necessary procedures to complete the year end accounting. In time, the condition of the accounting records should become better and less assistance will be required in this area by the auditors. We suggest that the Village provide its accounting staff with the necessary training to ensure they are able to efficiently prepare the year end accounting for the audit.

SCHEDULE OF FINDINGS YEAR ENDED MARCH 31, 2021

FINDINGS-FINANCIAL STATEMENTS AUDIT: (CONTINUED)

SIGNIFICANT DEFICIENCIES: (CONTINUED)

Response: We are aware of this deficiency and believe it is not cost beneficial in our situation to acquire this expertise. We will continue to use our external auditors for this technical assistance. We would expect this situation to be ongoing in future years.
