

## 2026 Heifer Highlights

Our heifers are special as they are a product of our hard work in the development of animals that will perform well in raising calves. As usual they are the ones that are hardest for Jim to part with as they are all his pets. The bulls used this year were True North and LAF105(Accomplishment). Both offer really good maternal traits which were pretty evident in this year's calf crop. Payment is due the day of sale with pick up that day or arrangements to be made soon after. We will not retain any to breed for you as we have in years past.

**LAF506 AAA 21308309** A True North daughter out of a Patriarch first calf heifer (315). Some good pathfinder cows in this heifer's pedigree. True North is strong in maternal traits so this calf should make a fine addition to your herd.

### **LAF513 AAA 21308317**

A True North heifer out of a Justified dam (205). This heifer has really blossomed since weaning and has gone off and on the list. She has a CED of +13. She has some really good dams in her pedigree. She also has genetic markers as a Certified Angus Beef producer.

## 2026 Heifer Highlights

### LAF525      AAA      21360050

LAF105(Accomplishment) daughter out of a Stellar cow (021). This home raised bull makes some nice heifers with good udders. This young heifer has a CED of +10 and also has some good EPD scores for her maternal characteristics. The dams on both sides of her pedigree have raised many calves for us.

### LAF526      AAA      21319925      A

LAF105(Accomplishment) heifer out of a Black Granite dam (032). Quite a few pathfinder dams in her history. Her dam has a nice udder and this young cow should as well. She should make you a really nice cow.

### LAF 535      AAA      21319929      A

LAF105(Accomplishment) heifer out of a Justified cow (102). This is a mid-April heifer that was a special mating. The granddams of the parents were twin sisters. Jim thinks this one paid off as she is a really nice heifer that should offer you some excellent maternal traits.

## 2026 Heifer Highlights

**LAF538 AAA 21319217 A**  
 LAF105(Accomplishment) heifer  
 out of a LAF402(Absolute) dam  
 (861). This young heifer lost her  
 mother at 2 weeks of age. We bottle  
 fed her for a couple months until  
 she weaned herself when we put he  
 with the herd. She did pretty well for  
 herself. Her mother was one of our  
 top cows and we are pretty sure this  
 one will live up to her pedigree. She  
 is one that has been on and off of our list to keep.
