

BULL SHEET 2024 SALE

Thank you to each of you that have shown an interest in our cattle over the years. We look forward to the sale each year as it gives us a chance to connect with those who have purchased our animals previously and meet new customers. Due to the increased cost of feed and supplies, we are raising our minimum bid to \$3000 this year. We will continue to house and condition the bulls until June 1st at no additional cost. Delivery is free within two hundred miles and payment is not due until we deliver the bull to you. Please feel free to call Jim to arrange a time to view the bulls prior to the sale. (712)260-6144 (or Marcia at 712-260-6145). The sale will be held at Dave Hermstad's farm as he is developing the bulls. 4747 240th Ave Webb, IA. (It is 2 1/2 miles East of Jim's farm as the crow flies). March 30, 2024, at 1pm.

305 - Patriarch son out of a LAF402(Absolute) first calf heifer (137). This young cow did a wonderful job with this bull. Her mother (620) was out of Cedar Chest and was a very productive cow in our herd. **Heifer bull** - 38cm scrotal 75/90 motility/morphology

308 - Bull out of Patriarch and exceptionally good Black Granite cow (851). This dam is a fantastic cow and one of the top cows we own. She is one of the top cows that we own. Do not overlook this bull. **Heifer bull** - 40cm scrotal 90/90 motility/morphology

309 - Patriarch son out of an excellent LAF402(Absolute) cow (861). He has had excellent growth and was a standout since birth. His dam is one of the top cows in our herd. She has a good udder and disposition. His dam has two pathfinder cows in her background as well. **Heifer bull** - 38cm scrotal 75/90 motility/morphology

313 Bull out of LAF826(Diverse) and dam (664) that was sired by LAF120(Cedar Ridge). His dam is a good cow in our herd. She has an excellent udder and disposition. Her mother was a pathfinder cow and one of the top cows that we have owned. **Heifer bull** - 39cm scrotal 75/90 motility/morphology

316 is a LAF826(Diverse) son out of a nice LAF605(Capitalist) dam (940). This cow has our home raised bull LAF120(Cedar Ridge) in her pedigree (563 cow is her grandmother). LAF826 is turning out to be a good bull who is a half-brother to one of our favorite home-raised bulls LAF402. LAF605 has shown to be a productive bull as well. There are some proven genetics in this bull. **Heifer bull** - 38cm scrotal 75/90 motility/morphology

324 A nice LAF826(Diverse) son out of a pretty LAF402(Absolute) dam (613 – Hannah Jr). This calm mother had him up and nursing him quickly and he has been a steady gainer and eye-catching bull. His mother is a good uddered cow. Our home raised bull LAF402 was very good-tempered, and we used him for several years with impressive results in cow production. **Heifer bull** - 35cm scrotal 75/90 motility/morphology

325 An LAF826(Diverse) son out of a LAF120(Cedar Ridge) cow (563). The dam's mother (533) lasted for years as a productive cow in our herd. There are good cows all over in this pedigree. **Heifer bull** - 37cm scrotal 75/90 motility/morphology

BULL SHEET 2024 SALE

326 A LAF826(Diverse) bull out of a young Black Granite cow (005). The dam is out of a really good cow (862) that was sired by LAF402(Absolute) bull. She has raised several good young cows that we have kept for replacement heifers. **Heifer bull** - 35cm scrotal 90/90 motility/morphology

328 A young bull out of LAF826(Diverse) and a Black Granite dam (803). This bull is out of a nice cow that has a lot of history in our herd. This dam's calves have sold well in past sales. Her grandmother is a 10-year-old cow in our herd that is one of the gentlest we own (442), and another cow is one that we kept until she was 17 (122). **Heifer bull** - 39cm scrotal 90/90 motility/morphology

329 A LAF826(Diverse) son out of a Capitalist cow (718). This dam has raised some nice daughters that we have kept in our herd. Her mother (461) was exceptional and was very productive for many years. She has a pathfinder in her pedigree as well. Capitalist was a proven cow making bull. This is a nice young April bull that has had steady gains this year. **Heifer bull** - 34cm scrotal 90/90 motility/morphology

332 A young bull out of LAF826(Diverse) and a Black Granite dam (925). This dam is a nice cow that raised the top selling bull at last year's sale. She is one of the top cows in our herd. This bull was raised without creep feed. We feel that is important as it will show you how productive your cows are in your herd. Do not overlook this young bull. **Heifer bull** - 37cm scrotal 75/90 motility/morphology. This is a brother to last year's top selling bull. He had a ribeye of 16.4.

335T A LAF826(Diverse) son out of a LAF402(Absolute) dam (769). This bull was a twin out of a productive cow that has a decent udder. **Heifer bull** - 36cm scrotal 75/90 motility/morphology

342 A LAF826(Diverse) son out of a LAF120(Cedar Ridge) dam (661). The grandmother (033) to this bull is one of our oldest cows on our farm. She has been an exceptional cow. This young bull has a lot of positive genetics behind him. **Heifer bull** - 36.5cm scrotal 90/90 motility/morphology

344 A bull out of LAF826(Diverse) and a LAF120(Cedar Ridge) dam (754). This is the youngest bull in our sale and despite that he is gaining well. His pedigree is full of good cows and will be a nice bull. **Heifer bull**. 36cm scrotal 75/90 motility/morphology

TY84 A bull with Black Granite and Stimulus in his genetics raised by our partner Tom Young. This is a really nice bull out of a really good mother. His mother goes back four generations to animals purchased from Larson Angus. **Heifer Bull** - 39cm scrotal 90/90 motility/morphology

TY66 One of Tom's biggest bulls on this year's sale. He has Justified and Black Granite in his background. His mother goes back 4 generations to animals purchased from Larson Angus. This is a really nice Nebraska bull. **Heifer Bull** - 37 cm scrotal 75/90 motility/morphology

BULL SHEET 2024 SALE

MH31 MH32 MH33 The three are Embryo brothers sired by KG Justified and the Dam is 61 Capitalist cow of Drew's. This is a no miss set of full brothers. If you are looking for female producing bulls with excellent growth, take a look at these three. Birth weights of 86, 85, and 83 lbs respectively they will work on both heifers and cows. This cow, 61, has produced 4 top selling bulls in past sales. She has been flushed twice with 22 and 13 Grade One eggs. We will be flushing her again this summer and fall. **Heifer bulls** - All tested 39cm scrotal 90/90 motility/morphology

MH35 An excellent Patriarch son out of a first calf heifer that was sired by LAF402 and a sister to the MH61 cow that has the 3 bulls 31, 31, & 33 on the sale. His dam and her second bull calf on February 17th. **Heifer Bull** - 37cm scrotal 90/90 motility/morphology

HB048 LAF115(MH84) on out of a LAF859(Power Alliance) cow. This is a nice bull with steady gains owned by Greg and Dave Hermstad. **Heifer Bull** - 35.5cm scrotal 75/90 motility/morphology

HB327 Patriarch son out of a cow owned by Dave and Greg Hermstad (327) that is out of Black Cedar. The dam was one purchased from Jim Larson and there are two pathfinders in the genetics of this bull (505 and 702). **Heifer bull** - 38cm scrotal 90/90 motility/morphology

HB642 A nice bull out of a Cedar Chest cow (641) owned by Dave and Greg Hermstad. **Heifer Bull** - 37cm scrotal 90/90 motility/morphology

HB730 A nice bull out of a Leopold cow (730) owned by Dave and Greg Hermstad. **Heifer Bull** - 40cm scrotal 90/90 motility/morphology

HB833 A Patriarch son out of a Black Granite dam (833) owned by Dave and Greg Hermstad. The maternal grandmother (133) to this bull was a pathfinder owned by Jim Larson. **Heifer Bull** - 39cm scrotal 90/90 motility/morphology
